

I care deeply about the future of our incredible city. I have been honored to be on the Sausalito Sustainability Commission and feel that the time is right to take my commitment to our community to the next level.

A firm believer in solutions oriented governance grounded in my Master's in Business and Public Administration, I seek to listen to all sides of an issue deeply to ensure that each and every constituent feels heard. In this way every vote I cast will reflect the diverse interests and views that make our city great. I will seek solutions that speak to those interests and serve the long-term needs of our community. With a background in Economics and Nonprofit Management, I recognize the importance of responsible financial stewardship of our limited tax dollars.

I am a pragmatist who understands that change is inevitable, despite our desire for it to be otherwise. The question is, do we want to define that change or allow it to happen to us and deal with the consequences?

I hope that you will vote for me for City Council and, if elected, look forward to hearing from you – whether you vote for me or not.
