

How Do I Use This Page?

As your jurisdiction launches SolarAPP+ this page provides information about SolarAPP+ that you can use to ensure that contractors in your community have the tools to use the platform effectively.

By providing these clear and concise instructions on your website, your jurisdiction can:

- Improve efficiency
- Minimize delays
- Reduce the time permit staff spend explaining the process to contractors

Formatting Key:

Italicized text Replace with jurisdiction-specific information. We highly recommend that this be as detailed as possible to create a low-touch process for your permit office.

[Blue text](#) Indicates where a clickable link should be inserted.

[Green text](#) Represents the URL that should be linked to the blue text.

For example: [SolarAPP+](#) (www.gosolarapp.org/) means the words SolarAPP+ should be a clickable link to the provided URL.

For any questions please contact your onboarding specialist.

What is SolarAPP+?

SolarAPP+ (Solar Automated Permit Processing Plus) is an automated online permitting platform that allows licensed contractors to apply for permits for standard residential rooftop solar and energy storage systems. The platform automates the solar plan review while performing comprehensive code-compliance checks to ensure adherence to the *[Current AHJ Code Years]* and local regulations.

Please refer to the [SolarAPP+ Eligibility Checklist](#)
