R/R HOT WATER MAIN & RECIRC LINES

Remove and replace existing hot water main trunk lines and hot water return (recirculation) piping within the residence. Install new PEX hot water distribution mains and recirculation line in accordance with the California Plumbing Code (CPC) and manufacturer requirements. Work includes selective demolition of interior finishes as necessary to access piping, installation of new hot water mains and return line, and reconnection to the existing system. Restoration of removed finishes shall be limited to patch and texture to match existing. All new piping shall be properly supported, insulated as required, protected from physical damage, pressure tested, and flushed prior to final approval.

Installation routing and methods shall comply with applicable codes and standard industry practices. No structural modifications are included. No modifications to the existing cold water distribution piping or fire sprinkler system are included; all shall remain in place and operational. All work shall be performed in a workmanlike manner and comply with all applicable local and state codes.

Scope is limited to hot water main distribution and recirculation piping only. Branch lines to fixtures are not included unless otherwise noted.
