Subject: [EXTERNAL] Housing element
Date: Saturday, January 11, 2025 10:57:59 AM

Do not offer or give any public land for housing. Target private land and let the chips fall where they may. Public school land, dog parks, regular parks should be left alone. The housing laws suck but giving public land to comply is a lose lose situation. Future residents have less space to enjoy and unwanted residents sucking up space and infrastructure they don't even pay for if affordable.
