Neal — I have been made aware that the city of Sausalito is planning to build 191 units for occupancy at MLK park. This would impact the park drastically and probably ensure its demise. The park is utilized by hundred of people daily - children riding their bikes, playing soccer, persons walking or jogging, and likewise dogs being walked and running around. There is such a limited amount of open park land in upper Sausalito, that it seems totally unquestionable to remove that space to build housing. There are other areas that are not utilized as much by the public in which to build. Let us leave MLK park alone for the enjoyment of the people of Sausalito.

I look forward to hearing from you on other plans for development. But, please leave MLK park alone!!!

Carol Goodman, a concerned citizen of Sausalito
