Dear Staff and Council,

I strongly urge you to explore better housing options than Public Parks or City Hall. There is no justification for spending taxpayer money on a special ballot measure that forces residents to choose between two unsuitable options. It's time to move past closed-door decisions and adopt a more collaborative approach to urban planning—one that leverages expert input and prioritizes community needs.

Thank you for your consideration.

I look forward to the acknowledgement that you have received this letter.
