Subject: [EXTERNAL] Do not permit housing at Spencer Fire Station

Planning Commission,

I am greatly concerned to learn that the Spencer Fire Station site is being considered as a site for housing. I believe Sausalito must recommission the Spencer Fire Station for its original and obvious purpose; as a fire station for the safety of all Sausalitans.

The Spencer Fire Station was decommissioned years ago, at a time when citizens and council did not fully understand the ramifications of climate change....before insurance companies left California due to fire devastation...before the LA fires, Lahaina, Paradise, Sonoma/Napa, and more.

Now is the time for Sausalito to proactively revisit fire safety for our small village.

Please do not accept the Spencer Fire Station as a site for housing allocation. Please preserve the Spencer Fire Station for a study to recommission its service for fire prevention, rapid response, and neighborhood safety.

Thank you,

Linda Pfeifer
Sausalito Resident
