Dear City Councilmembers,

Emailing to express my concern about potential over use and expansion at the Alta Mira property, which my home sits adjacent to. I am a supporter of adding affordable housing and I support the idea of using the existing Alta Mira structure and/or footprint to add new residential units but expanding the footprint of Alta Mira would exceed the limit of how much growth a small neighborhood like ours can absorb and about preserving the views that are an essential part of what makes Sausalito, Sausalito. Please keep the housing plans at Alta Mira confined to the existing structures to preserve our neighborhood and the character of our city.

Regards,

Ross Sullivan
