Dear Staff and Council%2C, I have written an objection before to your continued desire to use MLK ,town hall and other spots already used and necessary to our health and well being. I strongly urge you to explore better housing options than Public Parks or City Hall. There is no justification for spending taxpayer money on a special ballot measure that forces residents to choose between two unsuitable options. It's time to move past closed-door decisions and adopt a more collaborative approach to urban planning—one that leverages expert input and prioritizes community needs. I remind you of Boston and NYC (and others) taking over and revitalizing their waterfront and the success those developments achieved. Thank you for your consideration. Jennifer
