ADAPTATION PLAN

SAUSALITO
SHORELINE ADAPTATION

Q1 Have you experienced any flooding or related issues in Sausalito in the past?

Answered: 198 Skipped: 2

ANSWER CHOICES	RESPONSES	
No.	47.47%	94
Yes. (If yes, please describe the experience)	52.53%	104
TOTAL		198

#	YES. (IF YES, PLEASE DESCRIBE THE EXPERIENCE)	DATE
1	Gate 5 road Floods anytime tide is over 5'	11/16/2024 9:32 AM
2	Streets flooded during king tide in the Marinship	11/15/2024 9:18 PM
3	Flooding of roads preventing access to certain areas	11/15/2024 4:37 PM
4	Dunphy park floods almost daily. Gate 5 road also floods daily.	11/13/2024 2:52 PM
5	King tides area problem accessing stores	11/13/2024 10:46 AM
6	parking my car for my home on east pier floods and I can't walk my dog down gate 5 road.	11/12/2024 7:01 PM
7	Our parking lots and walking paths to our homes flood frequently at high tide, requiring us to try and move our cars. This is challenging as space is very limited.	11/12/2024 6:56 PM
8	Biking through bay water on the Mill Valley-Sausalito Path	11/12/2024 2:00 PM
9	Getting to houseboat at yellow ferry dock and trying to drive on Gate 5 road. It floods every month.	11/12/2024 10:38 AM
10	Houseboat Parking lots	11/12/2024 10:16 AM
11	I used to live and work on Gate 5. A few times I couldn't pass the flood and needed to re-route. I most recently lived in Tam Valley, so on a king tide mixed with a winter storm, the flooding at Manzanita on Hwy 1 under the freeway can be intense, especially if you plan to catch a bus there.	11/12/2024 9:41 AM
12	General storm flooding	11/12/2024 9:25 AM
13	Donahue exit flooding impacting access. Flooding at Gate 5 impacting access to buildings. Flooding at Shoreline Hwy exit northbound	11/12/2024 7:13 AM
14	With rains, we had public drain pipes above us that were clogged that suddenly unclogged and	11/12/2024 6:59 AM

Sausalito Shoreline Adaptation: Community Survey

	we experienced a torrential flood of water like a river that lasted a half hour	
15	When I park at the ICB the parking lot usually floods	11/12/2024 6:48 AM
16	Gate 5 Road floods horribly.	11/11/2024 5:51 PM
17	Bridgeway flooded 12-24 inches deep, Princess street to Richardson at 2nd St. road closed, no way through town	11/11/2024 5:49 PM
18	Drake/Donahue Gate5 Manzanita bus stop	11/11/2024 5:26 PM
19	All over the Marinship	11/11/2024 4:15 PM
20	Gate 5 road, parking lot at Kappas Marina, Highway interchange	11/11/2024 4:13 PM
21	I see the flooding on Gate 5 often. I guess that is "experience" but so far it's not impeded me.	11/11/2024 4:07 PM
22	Flooding at the Manzanita Park & Ride	11/11/2024 3:29 PM
23	Manzanita park lot flooding	11/11/2024 2:34 PM
24	Sidewalk on Bridgeway	11/11/2024 12:27 PM
25	Flooding on Gate 5 Road. Flooding in Sausalito MiniStorage building.	11/10/2024 8:51 PM
26	At every tide over 6' + MLLW, theses areas which I use regularly flood: Gate 5 Road; Gate 6 Road; Kappas Marina parking lot, and of course Manzanita underpass. NB: salt water has risen to within 1" of the top of the cement pad for the PG&E above-ground transformer serving Kappas Marina.	11/9/2024 6:25 PM
27	Donahue, Manzanita, bike path, Stinson Exit, Pohono St	11/9/2024 3:45 PM
28	Gate 5 Road flooded during King Tides.	11/9/2024 2:37 PM
29	king tide road closures	11/9/2024 12:47 PM
30	Flooded bike path.	11/9/2024 10:06 AM
31	Flooding on the streets near Heath Ceramics on the street and parking lots	11/9/2024 8:13 AM
32	Near heath ceramics at high tide	11/9/2024 7:17 AM
33	Not personally, meaning not at my home, but along the cycling/walking path from Bridgeway to Mill Valley. Also, I have seen flooding along Gate 5 road regularly.	11/9/2024 5:48 AM
34	Flooding of the bike path between Manzanita Park & Ride and Mike's Bikes in North Sausalito.	11/8/2024 9:56 PM
35	Parking lots and local streets flooding consistenly every month.	11/8/2024 8:44 PM
36	Lack of access to trails and driveways	11/8/2024 7:17 PM
37	Flooding of bicycle path under freeway as well as the street next to Heath ceramics.	11/8/2024 4:45 PM
38	Flooding on the bay trail and through Marin city	11/8/2024 4:39 PM
39	impasses along by gate five road and on rare occasions Bridgeway	11/8/2024 4:16 PM
40	While living on South 40 dock, several times the highest tides flooded the parking area, temporarily isolating the residences on the dock.	11/8/2024 4:12 PM
41	Flooding along transit routes, a small landslide too	11/8/2024 4:09 PM
42	We live on Yellow Ferry Dock, off of Gate 6 Road. Gate 6 Road increasingly floods, 6"- 18" in range. These conditions are not good for cars, even humans if your boots aren't high enough. Our parking lot also floods, but Gate 6 Road is the most vulnerable spot.	11/8/2024 4:08 PM
43	Gate 5 road	11/4/2024 1:54 PM
44	In 1994-5 living on second street my daughter walked to the sausalito bakery on bridge way in a storm. Waves were crashing over bridgeway in the lower places. the Sausalito Police stopped us and told us to walk the sidewalk opposite the bay. Water was up against the buildings in places.	10/28/2024 12:10 PM
45	Gate 5 road	9/26/2024 3:16 PM

Sausalito Shoreline Adaptation: Community Survey

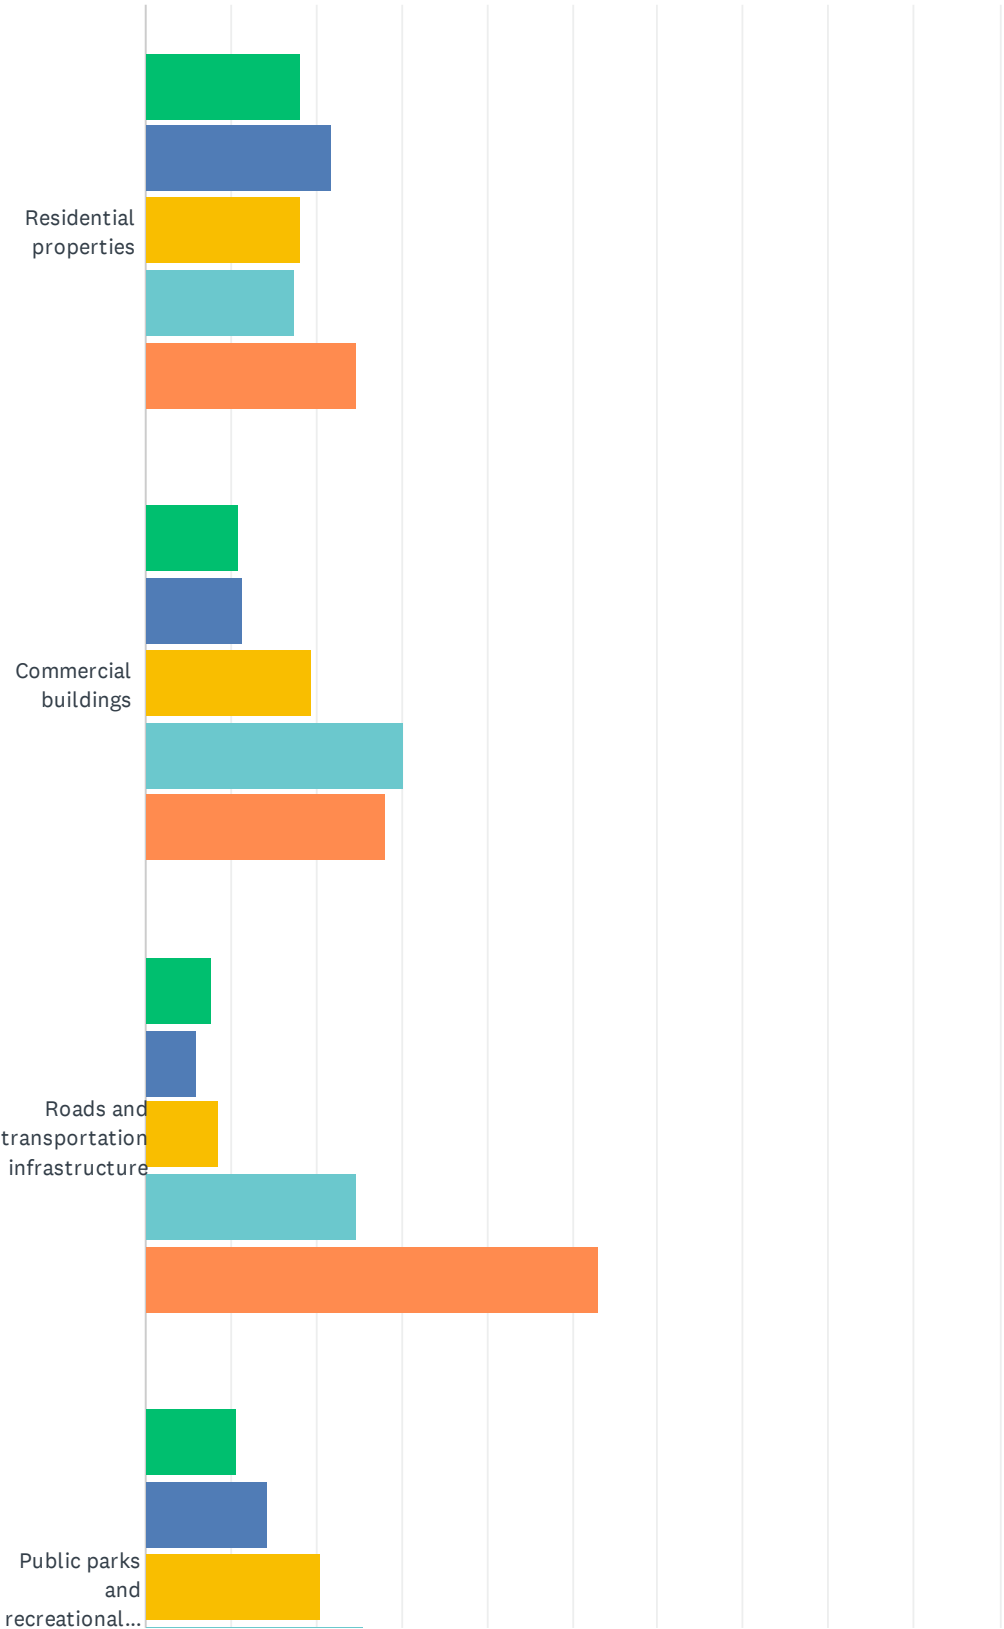

46	We live on Gate 5 Road and the flooding during King Tides is something we're concerned about every time. We keep sand bags in arms reach just in case.	9/26/2024 1:35 PM
47	The bike path between Manzanita Park and Ride and Northern Sausalito	9/25/2024 11:30 PM
48	Gate six road	9/21/2024 8:55 PM
49	Bothin bike path floods each king tide and renders it impassable	9/21/2024 8:30 PM
50	Flooding on streets around Gate 5 rd	9/21/2024 5:59 AM
51	Our basement has flooded in the past	9/20/2024 9:11 PM
52	Gate 5 road	9/20/2024 5:20 PM
53	1. Trying to get to businesses on Gate 5 Road 1. Unable to exit northbound 101 to get to Tam Junction	9/20/2024 1:21 PM
54	There were a number of flooded areas along Bridgeway and between Bridgeway and the shore after last year's storm. We've also seen the flooding at the Marin exit off 101 which takes place each year and get worse each year.	9/18/2024 10:16 PM
55	I am a small business owner. We are slightly below ground in the Marinship area on Gate 5 Road. We have experienced regular flooding indoors over the past 16 years in our space. The road in front of our business floods regularly at high tide which is manageable, and we have had flooding in the parking lot that has made access to our space inaccessible.	9/17/2024 12:15 PM
56	just a few midwinter storm spring tides.	9/16/2024 5:09 PM
57	I live on top of a hill. Increasingly violent storms dump rainwater onto the pavement of Cloud View Road which washes down my driveway and floods the downhill neighbor's property. I bought a very expensive German made cistern to minimize the problem.	9/16/2024 4:27 PM
58	Office on 1st floor on Gate 5 road had flooding .	9/16/2024 5:49 AM
59	Worked downtown and witnessed sandbagging. Use the path to mill valley and obviously cannot do so when tides and rain combine.	9/15/2024 4:30 PM
60	Clipper parking lot next to Fish restaurant before land was raised in @2001.	9/15/2024 9:01 AM
61	Floating Home community parking lots and nearby streets (Gate 5 Rd)	9/15/2024 8:51 AM
62	Gate 5 Road, Gate 6 Road, Sausalito bike path, Waldo point car park (where we park - we own a floating home). The carpark flooding is deep enough to cut off Yellow Ferry dock completely, and damage cars. The lot floods now more frequently at 6' 1" or greater tides and king tides cover the whole road. Freeway exit to 101 flooding and Manzanita bus/parking flooding.	9/15/2024 7:46 AM
63	Road closures	9/15/2024 7:14 AM
64	Tidal flooding at Waldo Point junction onto 101	9/15/2024 5:52 AM
65	Flooding of gate 5 Rd near my office	9/15/2024 5:35 AM
66	Residence	9/14/2024 8:54 PM
67	Many low laying areas including areas encompassing infrastrure	9/14/2024 5:45 PM
68	Gate five road floods and I can't get to the Icb building	9/14/2024 2:54 PM
69	On the bikepath to Mill valley at Mike's Bikes.	9/14/2024 10:59 AM
70	we live along Gate 5 Road which floods regularly.	9/14/2024 8:18 AM
71	bridgeway 12" plus	9/13/2024 9:10 PM
72	Parking lot and road flooded, Gate 6	9/13/2024 8:45 PM
73	Gate Five Rd. high tide flooding	9/13/2024 7:11 PM
74	I've biked through standing water on the Sausalito-Mill Valley trail; Also experienced standing water on the street along the side of Mollie Stone's and on the street along Heath	9/13/2024 4:44 PM
75	My office is near Gate 5 Road which often floods. Have also seen flooding on the Manzanita	9/13/2024 4:24 PM

Sausalito Shoreline Adaptation: Community Survey

	exit.	
76	The City owned property below our house has slid over three times and has failed to repair and fix the problem. They claim the have the money in their budget request, but it never gets funded. Instead, less critical items receive millions of dollars. We face anxiety every winter. The City failed to step forward and do the responsible repairs to date.	9/13/2024 4:14 PM
77	I haven't been personally impacted but am always surprised by street flooding along Gate 5 Road and submerged cars that happen to be parked there and businesses that have adapted to inundation like Heath and Anchorage 5.	9/13/2024 4:10 PM
78	Our place of business at Clipper Yacht Harbor has experineced flooding for decades. As a result, we have invested heavily to prevent flooding and have been successful in lessening the this impact.	9/13/2024 3:57 PM
79	Road closures at Gate 5 and on Harbor Blvd. at the entrance to Clipper Marina.	9/13/2024 3:49 PM
80	Streets flooded, sidewalks flooded, bathrooms backing up	9/13/2024 3:41 PM
81	flooding behind Mollie Stones during storms	9/13/2024 3:27 PM
82	Flooding on Gate 5/Harbor Dr Thats about it	9/13/2024 3:16 PM
83	Gate 5 road	9/13/2024 2:53 PM
84	Surrounding the ICB	9/13/2024 2:52 PM
85	Nothing where I live on Santa Rosa Avenue Recently sewer backup. Water in lowlying areas like Marin City underpass. Years ago, water in Inn Above Tides breakfast room and stores across Bridgeway near Princess	9/13/2024 2:45 PM
86	Walking on planks in Heath Ceramics over the years	9/13/2024 2:35 PM
87	Flooding on Bridgeway	9/13/2024 2:15 PM
88	My car got partially flooded while parked on Gate 5 road.	9/13/2024 2:02 PM
89	Gate 5, Marin city, exit from 101	9/13/2024 1:55 PM
90	Flooding in ICB parking lot. Mud slide and downed tree on Harrison	9/13/2024 1:49 PM
91	Runoff on hilltop not properly managed	9/13/2024 1:45 PM
92	Trying to drive thru water	9/13/2024 1:39 PM
93	Parking lot flooding.	9/13/2024 10:46 AM
94	Mostly during king tides when trying to drive from Sausalito to Mill Valley	9/12/2024 2:33 PM
95	Gate 5 Road floods frequently making it difficult to get to work (I'm unwilling to drive my car through salt water). The flooding severely impacts a hidden gem in Sausalito - Anchorage 5 restaurant (my favorite breakfast restaurant).	9/12/2024 10:52 AM
96	Flooded Streets in north area Possible vulnerability for boats in harbors when there is high tide and a storm.	9/11/2024 11:57 AM
97	Gate 5 Road floods at almost every high tide >6' Gate 6 road floods at every minor king tide event - making the road impassable for residents and businesses.	9/11/2024 10:52 AM
98	Gate 5 road	9/11/2024 9:53 AM
99	Gate 5 area, and of course, Manzanita	9/10/2024 4:41 PM
100	Flooded parking lot Issaquah Dock	9/7/2024 10:06 PM
101	I live on a floating home. Lots of flooding in our parking areas and along gate 6 and gate 5 roads. Also difficult freeway access due to flooding at times.	9/7/2024 1:57 PM
102	Parking lot has flooded in King Tides	9/7/2024 1:01 PM
103	Streets, parking	9/7/2024 12:56 PM
104	Bridgeway flooded 18"	9/7/2024 10:46 AM

Q2 On a scale of 1-5, how concerned are you about the impact of sea level rise in Sausalito for each of the categories below?

Answered: 198 Skipped: 2

Sausalito Shoreline Adaptation: Community Survey

Sausalito Shoreline Adaptation: Community Survey

	1 (NOT CONCERNED)	2	3	4	5 (VERY CONCERNED)	TOTAL
Residential properties	18.04% 35	21.65% 42	18.04% 35	17.53% 34	24.74% 48	194
Commercial buildings	10.77% 21	11.28% 22	19.49% 38	30.26% 59	28.21% 55	195
Roads and transportation infrastructure	7.58% 15	6.06% 12	8.59% 17	24.75% 49	53.03% 105	198
Public parks and recreational areas	10.71% 21	14.29% 28	20.41% 40	25.51% 50	29.08% 57	196

#	OTHER (PLEASE SPECIFY)	DATE
1	Why did you not list the natural resources along the shoreline and shallow waters? I'm very concerned about that. Also, Our marina, kappas, is not prepared for SLR. I'm concerned since its private property there will not be opportunities to do adaptation needs in the best manner.	11/12/2024 7:01 PM
2	I am worried about the impact on the historic houseboat community, which is very vulnerable me to sea level rise without assistance in raising the land and the docks	11/12/2024 6:56 PM
3	All along the waterfront will get flooded. The storm drains will not function since the water won't be able to drain down into the Bay which will affect all of the flatlands near the Bay.	11/10/2024 8:51 PM
4	ALL of the infrastructure supporting the commercial houseboat marina in Sausalito and its contiguous zone of influence will flood on higher tides within 10 years, according to government SLR projections. Without pre-emptive adaptation, that will disable 400+ housing units on the Sausalito waterfront.	11/9/2024 6:25 PM
5	Flooding, Seawall erosion, closed roads/access	11/9/2024 3:45 PM
6	The adjacent to the planned raise of 101 between the sausalito underpass and the redwood bridge.	10/28/2024 12:10 PM
7	Hey, it's not just seawater! Flooding and mudslides on the hillsides are also a problem! What investments will various government entities make to divert rainwater?	9/16/2024 4:27 PM
8	while not directly sea level rise, Sausalito has long been sandwiched between the bay and downslope drainage of the hillsides. How will climate change (sea level rise and potential changes to precipitation patterns) alter demands on our infrastructure's ability to drain into a rising bay?	9/16/2024 1:29 PM
9	Concerned over rain inundation on Sausalito's steep hillsides	9/16/2024 5:49 AM
10	Spaulding Marine Center, including Gate 5 Road access.	9/15/2024 9:01 AM
11	Floating home Marina and infrastructure including power, sewer, access, emergency services in use during flooding eg ambulance/ etc.	9/15/2024 7:46 AM
12	Seasonal flooding events preventing access to sections of the city during high tides	9/15/2024 5:52 AM
13	Sidewalk on bridgeway both street level and lower	9/13/2024 1:55 PM
14	While I note that I'm not concerned about residential properties, I do have concerns for residential properties located at Varda Landing - many of those homes are located on dry land in a flood zone and would be significantly impacted by rising sea levels.	9/12/2024 10:52 AM

Q3 What are you most concerned about related to flooding today and in the future?

Answered: 149 Skipped: 51

#	RESPONSES	DATE
1	Roads	11/17/2024 9:26 PM
2	access to the bike path by Mikes Bikes	11/17/2024 7:10 PM
3	I am most concerned that the city of Sausalito will spend time and money on studying the problem. We who have lived here for over twenty years, know sea-levels are rising. We need to make this clear to local and state government so we can build and move things to higher ground. We can not stop sea-level rise.	11/17/2024 2:39 PM
4	climate change	11/16/2024 2:06 PM
5	Our waterfront will disappear. I moved here for the scenic waterfront.	11/16/2024 9:32 AM
6	The feeling of disruption that could be avoided by proper planning and implementation.	11/15/2024 9:18 PM
7	Leeching of chemicals and unfiltered drainage to the bay will increase as sea level rises. Particularly around Waldo Point which used to be a salt marsh and is now a major access road, on ramp and highway area. Salt marshes naturally absorb sea level rise and are also net carbon offsetters. The "waterfront" from Dunphy Park all the way down past Waldo point used to be a wetland/ salt marsh. It would be great to explore some marshland restoration projects to help us increase the buffer between our seaside city and the rising tides. I'm less concerned about private residences and business because they will move/modify as needed. But our coastal ecosystem needs protection and we can protect ourselves by expanding/enhancing it. What a win-win!	11/15/2024 6:23 PM
8	Bikelane to Mill Valley has already been flooded easily. It will just get worse.	11/14/2024 2:59 PM
9	Bridgeway is Sausalito's main roadway that allows residents to evacuate in the case of an emergency. If our sewer/drainage systems are not fixed to prevent flooding	11/13/2024 2:52 PM
10	101 bridge closure	11/13/2024 10:46 AM
11	Personally: raising my dock and infrastructure such as sewerage, water, and parking. Professionally I'm worried about the biodiversity of the shoreline.	11/12/2024 7:01 PM
12	That owners of waterfront property are refusing to invest in improvements to the land, and often threaten to pass on costs to their tenants if improvements are mandated. This is especially true among the marina owners in the houseboat community.	11/12/2024 6:56 PM
13	If the Mill Valley-Sausalito Path is flooded, the only road between Sausalito/Marin City and the rest of the County is US-101, which is not legal to walk or bike on, meaning you need a car.	11/12/2024 2:00 PM
14	Attempting to rezone for non-waterbased housing will be very detrimental. We cannot build housing in the flood zones with impending sea level rise.	11/12/2024 10:38 AM
15	First, I don't want my artist friends and community on Gate 5 to get evicted. Plus, there's been long-term talk about developing Marinship and the Working Waterfront, which is most at risk for the 1 foot of SLR.	11/12/2024 9:41 AM
16	Instability in the hillsides	11/12/2024 8:43 AM
17	I am not concerned about flooding.	11/12/2024 8:16 AM
18	Concerned about access to and from Sausalito, damage to the waterfront and businesses	11/12/2024 7:13 AM
19	How it affects drainage and the collateral damage to sewers, clean water, fallen trees, gas lines and consequently property and lives	11/12/2024 6:59 AM
20	Worry about how the sewers will handle the change. I feel there'll traffic delays, parking lot	11/12/2024 6:48 AM

Sausalito Shoreline Adaptation: Community Survey

	floods	
21	Loss of economic value.	11/12/2024 6:13 AM
22	I'm concerned for the people in Marin city when the underpass floods. That seems to get the worst flooding. We don't have much residential on the water except for the floating home area and I'm not qualified to know how sea level rise affects the docks. If they're st risk is that the responsibility of the of the dock owners or the city of sausalito? What is the answer ?	11/11/2024 8:17 PM
23	Roads and infrastructure.	11/11/2024 5:51 PM
24	loss of travel through town, huge cost Sausalito will not be able to bear. Retreat will be necessary.	11/11/2024 5:49 PM
25	Being stuck on 101S exit and not being able to get home I live at 123 Drake Ave. in Marin City	11/11/2024 5:26 PM
26	Lack of investment leads to continued sinking of the area.	11/11/2024 4:43 PM
27	Gate 5 road is often unpassable. There are few roads through Sausalito.	11/11/2024 4:13 PM
28	Its impact on our ability to build more housing.	11/11/2024 4:07 PM
29	Roads and transportation infrastructure.	11/11/2024 3:29 PM
30	Roads and access in and out in case of flooding / emergency	11/11/2024 2:34 PM
31	lack of common sense planning	11/11/2024 12:27 PM
32	I fear that flooding and sea-level rise will continue and negatively impact our waterfront areas. That being decay and/or destruction of roadways and infrastructure.	11/11/2024 7:25 AM
33	Portions of Bridgeway will flood. The buidings along Bridgeway and East of Bridgeway will flood.	11/10/2024 8:51 PM
34	I'm worried that our amazing downtown waterfront is going to be underwater in the next decade at this rate of global warming!	11/10/2024 1:29 PM
35	We should protect the low lying areas proactively	11/10/2024 7:47 AM
36	Utilities infrastructure and transportation	11/9/2024 6:25 PM
37	Flooding, closed access (foot paths as well as streets)	11/9/2024 3:45 PM
38	Flooding affecting businesses and infrastructure like roads and sewers.	11/9/2024 2:37 PM
39	Shoreline flooding	11/9/2024 12:47 PM
40	Nothing	11/9/2024 11:40 AM
41	Disruption of vital infrastructure, government and private property.	11/9/2024 10:06 AM
42	Sea level rise and its impact to the infrastructures and home and the lack of readiness from the city	11/9/2024 8:13 AM
43	Docks and roadway areas along waterfront	11/9/2024 7:17 AM
44	It's normal to have flooding at times. This isn't a cause for concern. Just build smart and you can navigate it.	11/9/2024 6:17 AM
45	My concern is whether we (residents and local/state/federal government know what to do to mitigate the flooding in a holistic (versus piecemeal), whether we can collaborate effectively, and, whether we'll have the resources (time, money and people) to take action.	11/9/2024 5:48 AM
46	Changing the access and character of downtown areas if buildings are damaged or ruined	11/9/2024 4:20 AM
47	Sea level rise will eventually cause permanent folling in Marinships, ulness a seawal is built	11/8/2024 6:01 PM
48	The destruction of shorelines, property and environmentally sensitive bay/wetlands. The cost of restoration vs the cost of preparation.	11/8/2024 5:24 PM
49	Infrastructure of pipes and roads	11/8/2024 5:08 PM
50	Clogged gutters/drains	11/8/2024 4:52 PM

Sausalito Shoreline Adaptation: Community Survey

51	Impacts of increased sea level rise on the waterfront uses in the town	11/8/2024 4:45 PM
52	I live on the top of Donahue and am very concerned about the flooding in Marin City (for the residents and for access to roadways).	11/8/2024 4:39 PM
53	Concerned that the fabric of Sausalito will disappear with the businesses being impacted by sea rise levels particularly in north sausalito	11/8/2024 4:19 PM
54	that we adapt and prepare for the general rise in tides, not just an increasing number of king tides.	11/8/2024 4:16 PM
55	Property damage, damage to public facilities, erosion of waterfront	11/8/2024 4:12 PM
56	Lack of understanding that without significant change to how we live, the problem will continue to worsen.	11/8/2024 4:09 PM
57	Access to house boats and other properties that hug the shore. Even though the houseboats float, we just go up, we won't be able to get to them through the parking lots, county roads, etc.	11/8/2024 4:08 PM
58	Disruption to the walkability, bikeability and availability of new housing	11/8/2024 4:06 PM
59	The on ramps and off ramps to northern Sausalito.	11/8/2024 4:02 PM
60	Gaye 5 road is the poster child for Sausalito flooding. Sea level rise is inevitable.	11/4/2024 1:54 PM
61	A lack of contiguous SF Bay Planning	10/28/2024 12:10 PM
62	How can Sausalito get anything done to address sea level rise and flooding if even the most basic infrastructure projects are a multi-year process, opposed by a vocal minority and then hit gridlock in our City Council.	10/7/2024 9:13 PM
63	Access road, sewage overflow.	10/1/2024 9:30 PM
64	Shoreline pedestrian access.	9/28/2024 1:19 PM
65	Water needs to go somewhere - we need more wetlands and places that can be flooded in times of heavy rain/high tides (e.g., Dunphy, Marinship.)	9/26/2024 3:16 PM
66	I'm concerned that the Sausalito Arts District will receive less prioritization and prioritization in sea rise mitigation. It already feels like we have been given up on.	9/26/2024 1:35 PM
67	Flooding on the critical bike path between Northern Sausalito and Manzanita	9/25/2024 11:30 PM
68	Seawater infiltration of sewer systems and commercial properties built at sea-level.	9/25/2024 10:42 AM
69	On and off ramp for 101 at the north end	9/21/2024 8:55 PM
70	The degradation of the shoreline and further encroachment of the Bay into public areas	9/21/2024 8:30 PM
71	We just have to deal with it. We can't use it as just another NIMBY excuse	9/21/2024 5:59 AM
72	Not being prepared	9/20/2024 10:33 PM
73	The impact of unprecedented storms, PGE, the sewer system, and general infrastructure	9/20/2024 9:11 PM
74	I am on a houseboat and am mostly concerned about storm damage from wind/waves	9/20/2024 5:20 PM
75	accessibility. property values. local business economy.	9/20/2024 1:21 PM
76	homes being uninhabitable	9/20/2024 9:20 AM
77	Nothing is being done to abate the underlying causes of global warming--just a ton of PR B.S. There's going to be a 7' to 10' rise in sealevel over the next two decades or sooner. This will destroy much of Sausalito's businesses and homes near the shore.	9/18/2024 10:16 PM
78	I am concerned about Sausalito residents thinking that building sea walls to try and protect Bridgeway and associated buildings is going to be an effective tool to manage sea level rise. Unfortunately, hardening coastlines tends to move the energy of wave action to nearby locations, basically making sea level rise and erosion your neighbor's problem. I think that a sequence of different measures are needed for short, middle-and long-term management. In the short term, it may be possible to use green infrastructure to reduce the impacts of storm surge. Perhaps oyster reefs, graduated levees, restored wetlands. However, to make room for	9/17/2024 12:44 PM

Sausalito Shoreline Adaptation: Community Survey

this, some existing infrastructure would need to be moved. In the longer term, I think managed retreat is going to be necessary. I don't think Bridgeway is in a sustainable location and we need to think about that now.

79	We just signed a 5 year lease on a new space near the waterfront. I am fearful of how flooding could impact my business and the safety of my employees and wellbeing of my clients in the coming years.	9/17/2024 12:15 PM
80	Nothing.	9/16/2024 6:22 PM
81	Nothing. Mother Nature is doing her thing.	9/16/2024 6:01 PM
82	everything within 100 feet of higher high tide line	9/16/2024 5:09 PM
83	Mudslides. Stormwater flooding is as serious as seawater rise. Probably more so.	9/16/2024 4:27 PM
84	Part of Sausalito's unique character is its strong public realm relationship to the bay. Many towns and cities around the Bay have a weaker link between their primary public spaces and the waterfront. This is in large part why Sausalito is thought of as a 'waterfront community' in the public imagination. How do we protect while allowing for transformation of this linkage of public realm and bay waters?	9/16/2024 1:29 PM
85	Will alter the entire character and way of life.	9/16/2024 5:49 AM
86	Spaulding Marine Center is constructed on some of the last lands of the old shipyard. As subsidence has occurred, the entire structure has been raised to adjust for changing sea level. This will need to continue for the organization to remain viable to the community.	9/15/2024 9:01 AM
87	The floating home community is iconic and supports the local Sausalito economy. I hope this will be at the top of the list for Sausalito. Thank you.	9/15/2024 8:51 AM
88	Today - regular flooding is increasing fast.i moved here in 2009 and each year the tide has increased in depth gradually and visibly relative to shoreline. Carpark and shore adjustments eg bike path do not keep pace and the damage is real. Where I live requires flood and tide planning to avoid car damage. My concerns are increased infrastructure outage and damage/future costs to community and erosion of both shore and the beauty that makes Sausalito so special - it's worth preserving!	9/15/2024 7:46 AM
89	It happens, people adapt.	9/15/2024 7:14 AM
90	That our politics and civic structures will prevent and resist the necessary changes to make us more resilient in the face of an oncoming hazard	9/15/2024 5:35 AM
91	Current upto date evac plans such as the NWS-NOAA Tsunmai Play Book metrics.	9/14/2024 5:45 PM
92	Sea level rise obliterating Bridgeway	9/14/2024 5:38 PM
93	Roads and t ransporation issues. Also mudslides/landslides	9/14/2024 4:41 PM
94	Roads on and out of town and areas close by those roads	9/14/2024 3:18 PM
95	The Marinship	9/14/2024 2:54 PM
96	I am concerned that you'll spend more money than needed. Ie overengineer the project like you did with Dunphy park where you could have built new toilets, a bocce court etc and left the current lawn, trees, etc as is. Yes, if we have unlimited money, let's do everything. But we don't. And you have a track record of mismanaging these kind of projects. You never meet budgets or timelines, they always run over and never has consequences for the people responsible.	9/14/2024 10:59 AM
97	Roads, sewer systems, landslides, etc.	9/14/2024 9:31 AM
98	Funding the projects to raise infrastructures to avoid flooding.	9/14/2024 9:13 AM
99	I'm more concerned about Sausalito having a more vibrant downtown and providing businesses for locals as well as tourists. Managing the overwhelming bike traffic, pedestrians and overflow for locals as well - police are rarely present in the downtown area in the summer, when all kinds of poor behavior occur. Sausalito has a splintered community, factions of those who live in various ways - the city government should be working to bring this community together - instead it feels like a tourist attraction where some people choose to live	9/14/2024 8:42 AM

Sausalito Shoreline Adaptation: Community Survey

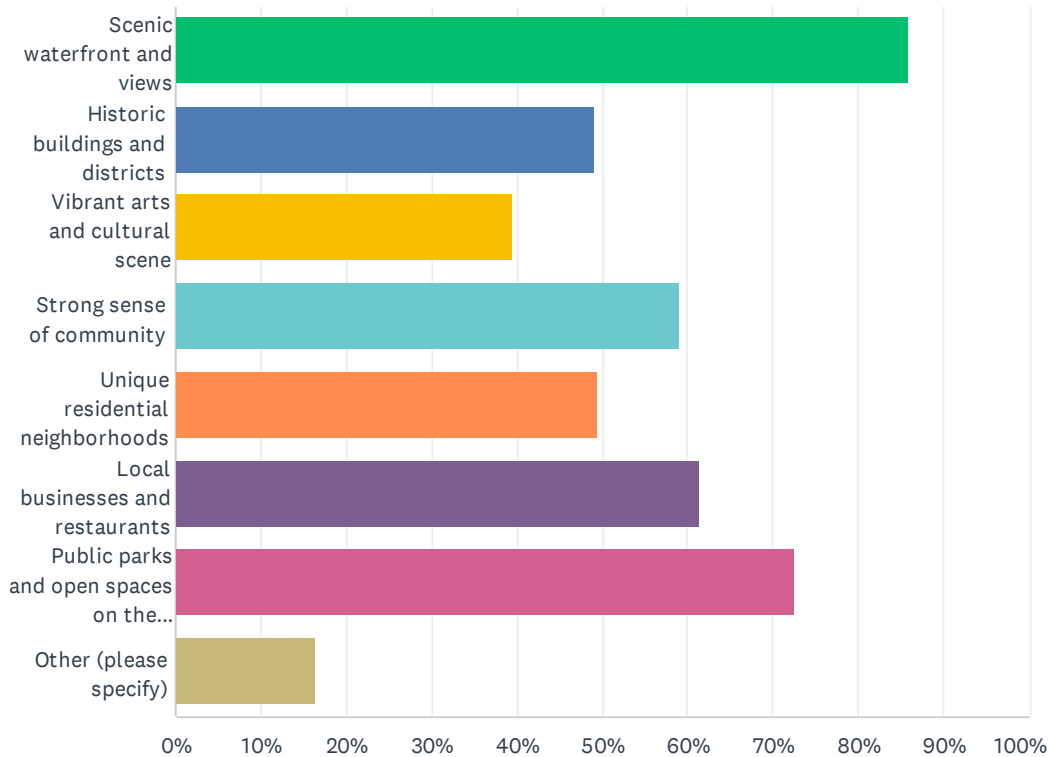

100	That our infrastructure will be compromised	9/14/2024 8:18 AM
101	Not concerned at all	9/14/2024 7:50 AM
102	I do worry that we are in danger of losing important small businesses in the immediate future in the Gate 5 area as the flooding seems to be getting worse down there. Longer term, I think Sausalito needs to have a plan for what other sites/structures will be affected.	9/14/2024 6:40 AM
103	I'm concerned about how flooding will effect residences and businesses along the waterfront.	9/14/2024 5:15 AM
104	More taxes.	9/13/2024 11:52 PM
105	loss of road access, loss of sewers	9/13/2024 9:10 PM
106	Being able to get to work with King tides , sewage in the bay due to flooding , parking in Marin city , manzanita	9/13/2024 8:45 PM
107	There is no plan and even if a plan is created there is a history of the City "kicking the can down the road" because of cost. The problem then continues to become larger and cost continues to increase.	9/13/2024 7:05 PM
108	Maintaining and enhancing Sausalito's beautiful world-class waterfront; Would be ideal if the community can use sea level rise to significantly improve the waterfront's buildings and walking/biking routes (make lemonade out of lemons)	9/13/2024 4:44 PM
109	The amount of money being wasted on this issue.	9/13/2024 4:34 PM
110	I'm concerned that Sausalito will prioritize its needs without considering them in the context that they are part of the Bay Area. If the entirety of the Bay Area could invest in a dam stretching from Point Bonita to land's end through which large ships could travel into the Bay during low tides and which would close shut during high tides, no one in the Bay Area would have to do anything and, by working together, they could retain the existing character of all of the wonderful waterfront communities lining the entirety of the Bay Area.	9/13/2024 4:31 PM
111	roads getting blocked by water	9/13/2024 4:24 PM
112	Not concerned enough to not spend on repairing and updating our aging infrastructure throughout the City.	9/13/2024 4:14 PM
113	I'm most concerned about the uncertainty of it all. Are there reasonable steps or changes that can be made over the next 100 or so years to limit impact or is managed retreat our only option? I wish there were ways to become more familiar with the problems and potential solutions.	9/13/2024 4:10 PM
114	Infrastructure	9/13/2024 3:58 PM
115	We are already late to the party. The rate at which such matters have been resolved in the past clearly threatens our future.	9/13/2024 3:57 PM
116	Transportation access and residential flooding	9/13/2024 3:49 PM
117	Losing shoreline and having to abandon waterfront culture.	9/13/2024 3:41 PM
118	Damage to infrastructure and commercial buildings	9/13/2024 3:36 PM
119	We own our property in the marinship	9/13/2024 3:27 PM
120	not really at all.	9/13/2024 3:16 PM
121	We need to do more, if flooding were to occur our city garbage can will spew tons of garbage into our bay. People do not know how to recycle, tourists and locals included. I clean up garbage almost every day on Caledonia especially on the weekends. We need to do a better job of educating people .	9/13/2024 3:09 PM
122	Bike path to Mill valley	9/13/2024 3:05 PM
123	Passage north end of town king tides	9/13/2024 2:53 PM
124	Impact of increased building on and near shorelines	9/13/2024 2:52 PM
125	waterfront properties, Marinship, Spinnaker, Books by the Bay and adjacent... and Bridgeway impasse	9/13/2024 2:45 PM

Sausalito Shoreline Adaptation: Community Survey

126	Flooding will impact usage of Bridgeway. Raising the road or building a higher road would be very difficult and impact stability of hillsides.	9/13/2024 2:35 PM
127	The roads and infrastructure	9/13/2024 2:21 PM
128	Spending too much money to mitigate a risk that doesn't materialize.	9/13/2024 2:02 PM
129	The impact on all of the properties located East of Bridgeway. .	9/13/2024 2:02 PM
130	nothing - private owners need to protect their property and City owned property may be at risk in 100 years. Workable solutions are decades away	9/13/2024 1:58 PM
131	Failure of bay view walkway in Sausalito, blockage of 101/bridgeway/marin city drake junctions	9/13/2024 1:55 PM
132	impacts on public infrastructure and who will bear the cost of adapting.	9/13/2024 1:51 PM
133	Destruction of the sewers and utilities. Access to roads and freeways. Beauty of Sausalito	9/13/2024 1:49 PM
134	Danger to people pets and wildlife Trees falling on homes	9/13/2024 1:39 PM
135	Sewers	9/13/2024 1:35 PM
136	Flooding and infrastructure damage.	9/13/2024 10:46 AM
137	There is a ton of infrastructure to protect and improve.	9/12/2024 2:33 PM
138	While flooding is problematic, we also need to recognize subsidence - our property subsides at an average of 1/8-inch yearly. We also need to consider that the extreme tides impact the maritime industry in Sausalito, making channels impassable during minus tides - this is the flip side of climate change that doesn't get looked at enough.	9/12/2024 10:52 AM
139	Homes, businesses and the infrastructure of our community must find ways to become more resilient or be relocated	9/11/2024 3:58 PM
140	Well, the whole waterfront is at risk eventually. A matter of degree as time goes on.	9/11/2024 11:57 AM
141	Roads that are underwater right now that haven't been adequately addressed by public works after decades of inundation.	9/11/2024 10:52 AM
142	That our city will put housing in the marinship and it's ready flooding causing our infrastructure strain and costing us a ton of money to fix what's not fixable.	9/11/2024 9:53 AM
143	I am a newly arrived resident, but I hail from La Jolla, CA, where flooding is rampant in the many areas in the region that are built for residential and commercial use in placed impacted by rising sea levels, run-off drainage and cliffs that are eroded by the sea. In all cases, these are critical problems to be addressed, and I understand the need for Sausalito to be proactive.	9/11/2024 9:23 AM
144	Impact on businesses, jobs and economic vitality (and related tax receipts.) Transportation. Storm drains, sewers, etc.	9/10/2024 4:41 PM
145	Roads	9/7/2024 10:06 PM
146	Shoreline infrastructure and fixed docks	9/7/2024 1:57 PM
147	Stationary floating home docks must be converted to floating docks	9/7/2024 1:01 PM
148	Having to retreat; city being unable to afford what is needed. Do not allow development in the 100 year flood zone.	9/7/2024 10:46 AM
149	Over development of a small strip of diminishing land, Sausalito	9/7/2024 10:17 AM

Q4 Of Sausalito's many unique qualities, what are the most important to you? (Select all that apply or add your own)

Answered: 200 Skipped: 0

ANSWER CHOICES	RESPONSES	
Scenic waterfront and views	86.00%	172
Historic buildings and districts	49.00%	98
Vibrant arts and cultural scene	39.50%	79
Strong sense of community	59.00%	118
Unique residential neighborhoods	49.50%	99
Local businesses and restaurants	61.50%	123
Public parks and open spaces on the waterfront	72.50%	145
Other (please specify)	16.50%	33
Total Respondents: 200		

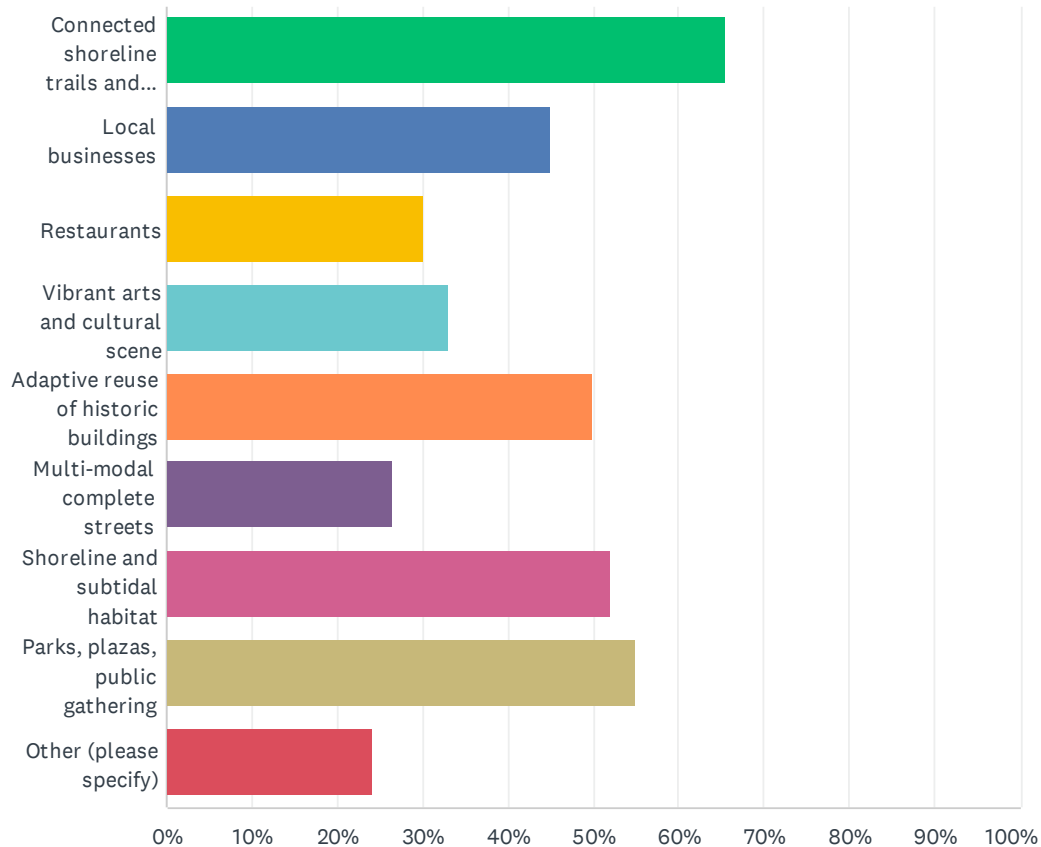

#	OTHER (PLEASE SPECIFY)	DATE
1	safe streets and strong police presence.	11/17/2024 2:39 PM
2	Stairs, access to open space	11/15/2024 9:18 PM
3	Natural coastal ecosystems	11/15/2024 6:23 PM

Sausalito Shoreline Adaptation: Community Survey

4	The Working Waterfront in the marinship and it's many businesses. It is one of the last working waterfronts able to allow large yachts/ships to be worked on in the entire nation.	11/13/2024 2:52 PM
5	Natural resources of the shoreline and shallow waters.	11/12/2024 7:01 PM
6	Public parks, not necessarily on the water front. They are vital to the Sausalito Community, such as MLK park.	11/11/2024 5:58 PM
7	Floating homes	11/9/2024 6:25 PM
8	The beautiful hills, trees and green/open spaces, the wildlife.	11/8/2024 5:24 PM
9	quality of retail offerings.	11/8/2024 4:14 PM
10	Maritime businesses, arts, and culture	11/8/2024 4:12 PM
11	Sausalito has made a deal with the Devil - we gave away our waterfront in exchange for parking revenues. On the bright side, at least our cars have a nice view from their parking spaces.	11/8/2024 4:09 PM
12	Working waterfront culture.	11/4/2024 1:54 PM
13	The BofA art center is a huge disappointment. Lost opportunity in a special place for revenue making op	9/22/2024 9:15 AM
14	A town that talks liberal and acts NIMBY ... I hope we can overcome this toxic trait	9/21/2024 5:59 AM
15	Wildlife using the shorelines- seals and many marine birds can be seen every day. Also, low-impact recreation such as kayaking and SUP use is nice to have available.	9/17/2024 12:44 PM
16	Laid back - not mill valley	9/16/2024 6:01 PM
17	The business district is in a death spiral of seedy, stale retail/restaurants.	9/16/2024 4:27 PM
18	Spaulding Marine Center	9/15/2024 9:01 AM
19	Floating homes community which can be a shining star for rising tides if done right. (Like Netherlands is to flood control)	9/15/2024 7:46 AM
20	Keep Sausalito vibrant at night with live music and activities.	9/14/2024 10:59 AM
21	Lower the city taxes.	9/13/2024 11:52 PM
22	Marinship	9/13/2024 7:11 PM
23	generally walkable and bikeable	9/13/2024 4:44 PM
24	All of them. Why change what is already so wonderful.	9/13/2024 4:31 PM
25	Blighted waterfront property. No other waterfront community on the Bay has more land going to waste.	9/13/2024 3:57 PM
26	Natural Resources	9/13/2024 3:36 PM
27	Downtown waterfront trashed by parking	9/13/2024 3:05 PM
28	We are a waterfront community. I am against anything that changes that. That definitely means further blocking of the waterfront. It's no place for higher structures.	9/13/2024 2:35 PM
29	Public access to the waterfront	9/13/2024 2:15 PM
30	Access to the water for residents and visitors	9/12/2024 2:33 PM
31	The Maritime Industry is the cornerstone of what makes Sausalito "Salty" - the industry needs the City's support to revitalize the waterfront!!	9/12/2024 10:52 AM
32	Working waterfront	9/7/2024 1:01 PM
33	Houseboat community	9/7/2024 12:56 PM

Q5 As change happens over time, what public amenities can we improve? (Select all that apply or add your own)

Sausalito Shoreline Adaptation: Community Survey

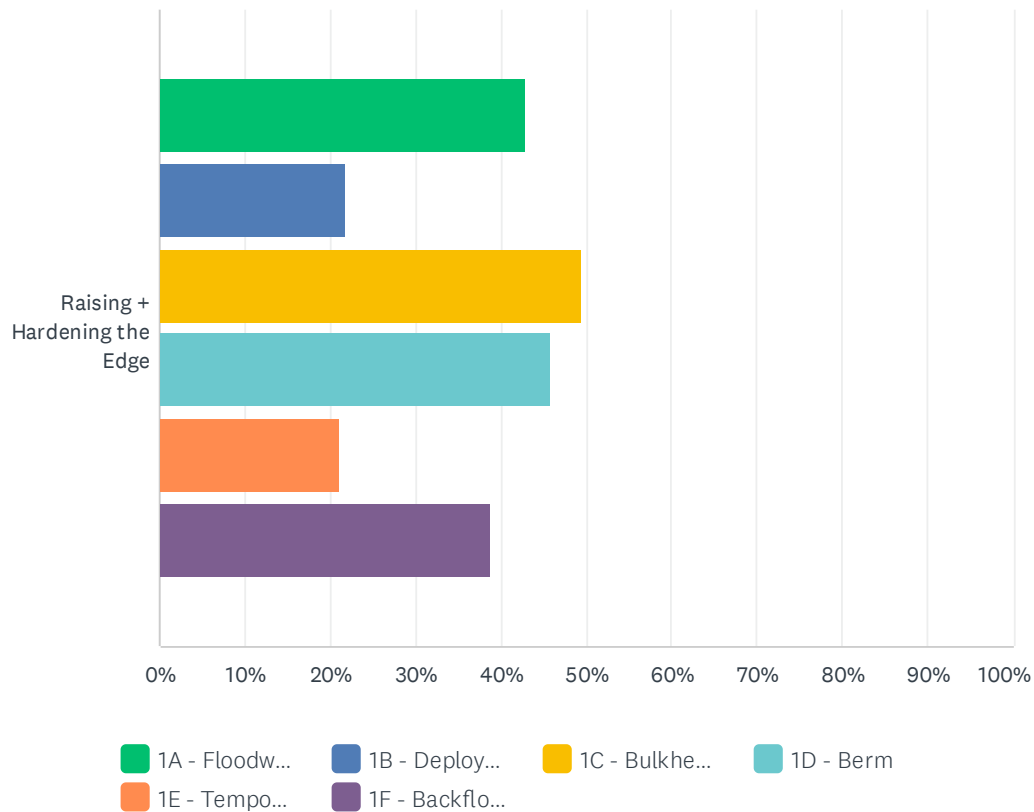

1	Local-SERVING businesses	11/18/2024 4:39 PM
2	safe streets	11/17/2024 2:39 PM
3	Ensuring that any development that happens within the marinship does not jeopardize the maritime businesses that Sausalito, the rest of the bay area, and the world rely on.	11/13/2024 2:52 PM
4	Even though the marinas are private, it would be great if they were less toxic, more sustainable, and possibly more floating infrastructure that's public. Most of the marina boats never get used, but their varnish, oil residue, and abrasive cleaning chemicals pollute Richardson Bay, in addition to the road run-off, which will worsen with SLR.	11/12/2024 9:41 AM
5	Employ practices to Encourage independent businesses	11/12/2024 8:43 AM
6	existing parks, not new ones, Sausalito does not take good care of the parks it has.	11/11/2024 5:49 PM
7	Better bike parking, better access to the bay	11/11/2024 4:13 PM
8	Bike traffic... RIDICULOUS!	11/11/2024 12:27 PM
9	I don't see how this relates specifcally to sea level rise flooding?	11/10/2024 8:51 PM
10	I'm so shocked and disapointed at how bad the roads are up and down Alexander and Bridgeway given the high traffic and tourists/bikes that use these roads. I also wish there were more sidewalks/lanes for pedestrians	11/10/2024 1:29 PM
11	improve hillside stairs throughout city	11/10/2024 7:47 AM
12	Extend commercial and restaurants to Dunphy Park and marinship	11/10/2024 7:35 AM
13	Recreational areas for kids over 12. Current playgrounds are only for kids under 12 yes old.	11/9/2024 2:37 PM
14	Spirit	11/9/2024 12:47 PM
15	Continuous separated bike path along or adjacent to Bridgeway	11/8/2024 9:56 PM
16	The streets/sidewalks needing repair!	11/8/2024 5:24 PM
17	maintain the low rise historic feel with f downtown. don't marina rey sausalito.	11/8/2024 4:14 PM
18	Interpretation and appreciation of Sausalito's maritime culture, businesses and history	11/8/2024 4:12 PM
19	Tear up all the parking lots, plant trees and grass, create an environment that nourishes residents and offers visitors something special - trust me, the tourists will come in ever greater numbers.	11/8/2024 4:09 PM
20	Pedestrian access for foot and bike traffic.	10/1/2024 9:30 PM
21	Need to finally get agreement w/GAO to take on that bdg	9/26/2024 3:16 PM
22	Two Ideas - 1. The instead of a flood wall as recommended below, what if we pushed outward and built a tidal open water swimming pool. It could act as a sea wall barrier, artificial reef, and also be a community gathering place for swimming enthusiasts, similar to the dolphin club in SF but built with the purpose of creating defensible space. 2. Lets combine the forces of art and sea level rise in a competiton to create a sculptural, vertical pump system that holds water in times of high tide and releases it during low tide. If there was a way to deploy art in some of the most effected areas ie. the on ramps in the north, it could create a unique, highly visible and opportunity that positions sausalito as a thought leader.	9/26/2024 1:35 PM
23	Continuous separated bike path/protected bike lanes along Bridgeway	9/25/2024 11:30 PM
24	We need a bike path to connect Alexander avenu with Bridgeway. Too many accidents and frightened bikers.	9/25/2024 10:42 AM
25	I would like to walk along the bay in more areas. For example, the Bay Model parking lot has parked cars blocking the view. Why can't there be a waterfront path there?	9/23/2024 10:41 AM
26	We need parking! Right now residents are discouraged with traveling to downtown in the weekends because of a lack of parking	9/22/2024 9:15 AM
27	Mixed use business, commercial and housing in the few spots available to develop. We're too siloed	9/21/2024 5:59 AM

Sausalito Shoreline Adaptation: Community Survey

28	Approaching empty commercial properties for repurposing to residential, for instance, the multi-story office building at Marina Plaza has had a for lease sign on it consistently for the 25 years I've lived here.	9/16/2024 2:17 PM
29	Affordable senior housing and undergrounding of utilities during sewer and other infra-structure upgrading!	9/16/2024 5:49 AM
30	Working marine industry waterfront including marinas, marine trades, etc.	9/15/2024 9:01 AM
31	Roads that flood today.	9/15/2024 7:46 AM
32	Ensure parks areas serve as flood barriers - land that allows for flooding. Create a flexible approach where it's Ok for some land to flood.	9/15/2024 5:52 AM
33	sidewalks and keeping streets clear	9/14/2024 5:45 PM
34	Fix / pave the roads, it's like living in a 3rd world country.	9/14/2024 10:59 AM
35	Public restrooms	9/14/2024 9:13 AM
36	our historic working waterfront which is under threat from public officials who fail to understand or value this unique asset	9/14/2024 8:18 AM
37	Reduce bicycle traffic.	9/13/2024 11:52 PM
38	parks, not plazas	9/13/2024 9:10 PM
39	Additional high quality buildings along the waterfront, potentially slightly relocated from today's waterfront	9/13/2024 4:44 PM
40	Shorelines: design and construct a beautiful hiking/biking path that runs the entirety of the Sausalito waterfront. Other: Big ask, but prioritize locals to bike tourists. The Golden Gate Bridge and Highway District would love to finance construction of a ferry terminal at Cavallo Point. Doing so would be LOVED by bike tourists who could cross the GG Bridge and more quickly head back to SF. That very small subset of tourists who really wanted to roundtrip to Sausalito (because they actually wanted to see Sausalito) could. The sock stores and Xmas tree stores and ice cream stores could relocated to Cavallo Point. And the local retailers could focus on the needs of the locals, once again. A win-win!	9/13/2024 4:31 PM
41	We need to repair and update our infrastructure. stand up to Sacramento and declare a moratorium on all additional housing.	9/13/2024 4:14 PM
42	Restoration of Creeks where Feasible	9/13/2024 3:36 PM
43	Less or zero tourist parking	9/13/2024 3:05 PM
44	Shifting to a more resident friendly Downtown area. This area needs to adapt to more housing and resident friendly plazas, businesses , and revitalization. Downtown is not a museum. We need change.	9/13/2024 2:15 PM
45	Repair docks at Turney Street, Cass Gidley and other City-owned properties	9/12/2024 10:52 AM
46	Important to maintain the small-town character of Sausalito that can be lost when progress is defined as overbuilding	9/11/2024 9:23 AM
47	Public wifi in business nd recreational districts	9/10/2024 4:41 PM
48	I am thinking the business and restaurants will remain.	9/7/2024 12:56 PM

Q6 After reviewing #1 Raising and Hardening the Edge tools above, which of these innovative solutions from around the world are most compatible with Sausalito's character? (Select all that apply)

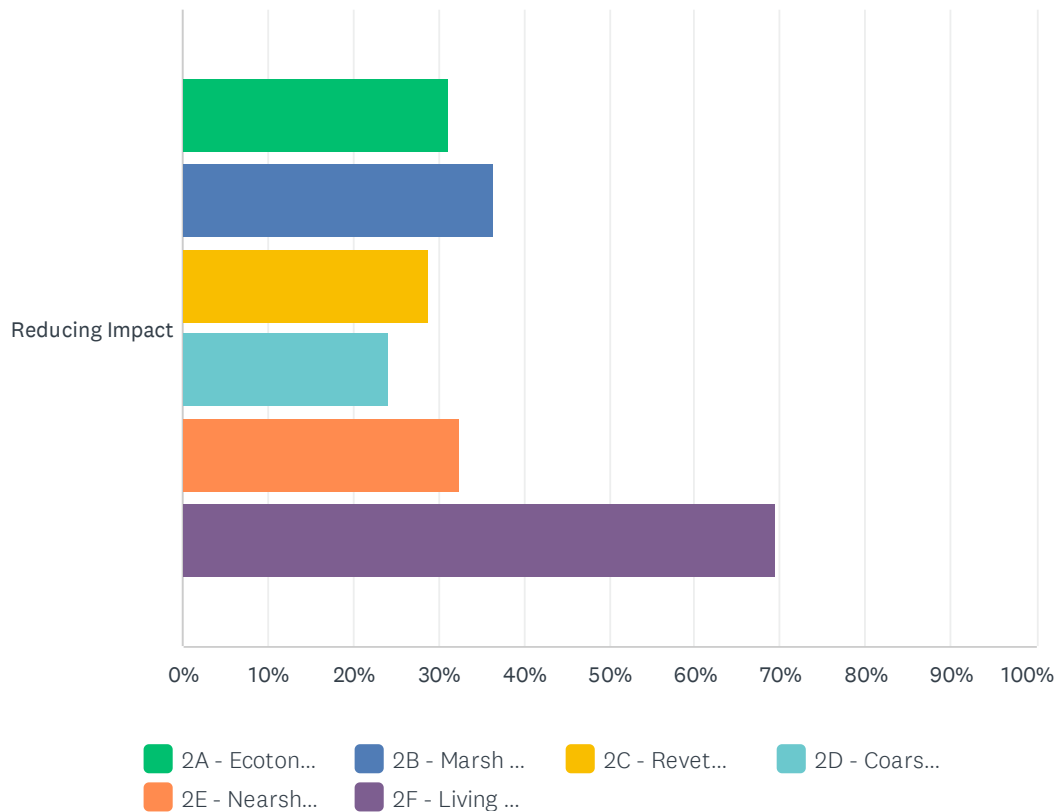

Answered: 170 Skipped: 30

	1A - FLOODWALL	1B - DEPLOYABLE FLOOD GATES	1C - BULKHEADS	1D - BERM	1E - TEMPORARY FLOOD BARRIERS	1F - BACKFLOW PREVENTERS	TOTAL RESPONDENTS
Raising + Hardening the Edge	42.94% 73	21.76% 37	49.41% 84	45.88% 78	21.18% 36	38.82% 66	170

Q11 What approaches are we missing?

Answered: 46 Skipped: 154

#	RESPONSES	DATE
1	I have not idea. This is very interesting, nevertheless.	11/18/2024 4:39 PM
2	?	11/17/2024 7:10 PM
3	Building on higher ground. Raise homes and business via federal grant money.	11/17/2024 2:39 PM
4	These environmentally conscios option are excellent choices for our community.	11/15/2024 6:23 PM
5	marina infrastructure innovation	11/12/2024 9:41 AM
6	Make it easier for home owners in sausalito to retrofit their homes for better adaptability to climate change	11/12/2024 8:43 AM
7	Water finds a way. Solid blocking is the only practical solution to retain existing improvements and infrastructure, given our limited land area.	11/12/2024 6:13 AM
8	Leaving the Marin ship historical buildings right where they are and not building high-rise apartment buildings that do not fit our small beautiful community	11/11/2024 5:26 PM
9	This is rather inane. We aren't engineers--and who's going to pay for this.	11/11/2024 4:15 PM
10	The survey seems to assume one approach. I would expect that we will use a variety of approaches depending on what part of town we are working with. I don't think relocate is a viable option, given how much we are struggling to accommodate the RHNA. The relocation option feels like a decision to abandon a large part of the community. Some of the other options don't feel realistic - we don't have high wave energy to absorb or lots of land to dedicate.	11/11/2024 4:13 PM
11	I have no idea!	11/11/2024 3:29 PM
12	less is more	11/11/2024 12:27 PM
13	I can't think of what realistically can be done to keep the water out of the Marinship and below Bridgeway	11/10/2024 8:51 PM
14	I think we should be comparing pros / cons across the categories above instead of just within each category...e.g., in my opinion it would be much preferred to double down on "raisening and hardening" solutions before getting to "living with" and "relocation" categories. Also, I think there are immense opportunities to use this as a mechanism to spur business development and mixed use public / residential / commercial space in areas that are to be affected that today are not well integrated into Sausalito, for instance the Marinship which will be very impacted by sealevel rise. It seems like a win win opportunity to treat sea level rise not as a cost center for the town, but as a once in a generation business investment opportunity that drives net positive economic value to the town while protecting it from sea level rise for the longterm.	11/10/2024 4:58 PM
15	You are aleeady too complicated. Complication = delayed and prolonged implementation. Pick a simple main strategy and get it planned, financed and done. KISS premise.	11/9/2024 12:47 PM
16	Reduce the population of Sausalito to reduce the risk / impact of the inevitable flooding.	11/8/2024 4:09 PM
17	One pro-active approach would be expanding housing through more floating homes. Amsterdam is doing this. Given today's affordable a.d.u. designs, new docks with a.d.u.'s could be a great asset and help mitigate some of the conflict over land use elsewhere in Sausalito.	11/8/2024 4:08 PM
18	Sausalito is a community that lives on and near the water. "Reducing Impact" and wetlands and tidal marshes would require our limited land to repurposed when there are other known solutions that do not reduce land area (even possibly expand it) while addressing and reducing the impact of sea level rise.	10/7/2024 9:13 PM

Sausalito Shoreline Adaptation: Community Survey

19	I don't think any approaches are missing.	9/28/2024 1:19 PM
20	Take out the concrete parking lot in MC shopping area and put in permeable surface. That would go a long ways to mitigating flooding at the exit.	9/26/2024 3:16 PM
21	This is a great assessment and approach and we're all grateful for the forward thought. Is there a way that these efforts can act as both protection and also a new economic driver? Marrying the two will likely prove to be critical for long-term support of any concepts.	9/26/2024 1:35 PM
22	We need to better understand this issue. The proposals above are for extreme flooding areas. Is this the case with Sausalito? Are these the best measures for our flooding concerns and issues?	9/22/2024 9:15 AM
23	The raised infrastructure components seems to focus on raising roads by placing soil to create a levee for the road to sit on. Another option, albeit very expensive, is to elevate sections of roads most prone to flooding. The area below the road can then act as a small tidal wetland.	9/17/2024 12:44 PM
24	Stop building on land that doesn't need to change.	9/16/2024 6:01 PM
25	fill	9/16/2024 5:09 PM
26	Why spends tens of millions to preserve a seedy downtown?	9/16/2024 4:27 PM
27	Don't know enough to suggest other remediations.	9/16/2024 5:49 AM
28	A comprehensive plan for the Marinship that addresses the piecemeal solutions employed so far by private land owners.	9/15/2024 9:01 AM
29	You are missing your OWN floating homes examples.	9/15/2024 7:46 AM
30	It's easy to pick the best solutions, everyone wants that. But everything comes at a cost which residents will pay for. So it's a tradeoff. If you wanted to get a REAL view of what people want you need to specify a price and what each option means to the avg resident. Eg: Option A costs 3x of Option B. If we choose option B, we can hire X more teachers in the schools and repave all roads in Sausalito within 3 years. With option A we can't do that and will have to increase taxes by Y. This approach will increase your resident satisfaction level and avoid the "I like the solution, but had I known it meant we could not hire more teachers or we had to increase taxes, I would have gone with one of the other options. My example is Dunphy park. If you asked people if they wanted a brand new park with all the bells and whistles, most people will say yes. If you told them it would likely run over budget and if we instead the existing park (new toilets, bocce courts, etc.), we could spend the money we save on teachers and/or better pavement, I think most people could have lived with the old lawn and trees....	9/14/2024 10:59 AM
31	Common sense.	9/13/2024 11:52 PM
32	In addition to keeping the best existing buildings, places, and corridors, suggest we use sea level rise to create some new landmark buildings, places and corridors for Sausalito's world-class waterfront	9/13/2024 4:44 PM
33	The dam idea is way cheaper. If it affects the environment, so be it. You could always keep the "gate" open for longer periods to keep the environment prioritized over the economic impact of fewer commercial ships coming into the Bay.	9/13/2024 4:31 PM
34	give up low lying structures	9/13/2024 4:24 PM
35	For now do nothing. Fix and repair what we have. Stop adding to the burden by adding to the population.	9/13/2024 4:14 PM
36	Floating bike path	9/13/2024 3:41 PM
37	We should target specific areas in the City where there is enough space that nature-based solutions like tidal salt marsh are feasible and can generate flood adaptation benefits without removing buildings - Sausalito Shipyard and Marina (former Arques) is a parking lot with temporary structures and has a 6-foot-diameter culvert conveying perennial stream Willow Creek. It could be restored to an estuarine wetland with multiple benefits, at the same scale as the Galilee Harbor wetlands (the only wetlands in the City) with the added benefit of having a creek running through it.	9/13/2024 3:36 PM
38	You will be using all of these strategies to truly address the issues. Asking the public what to do here is not why we have hired brilliant consultants and I'll be excited by a discussion of	9/13/2024 3:27 PM

Sausalito Shoreline Adaptation: Community Survey

	actual, site specific solutions	
39	I don't know!	9/13/2024 3:09 PM
40	None, just a greater sense of urgency	9/13/2024 3:05 PM
41	I found this very hard to answer as I really do not know enough to appreciate the impact and quality of each choice so I've done my best	9/13/2024 2:35 PM
42	We should consider dredging the channel and marinas, and use the dredge spoils locally to create natural levees.	9/12/2024 2:33 PM
43	The waterfront in Sausalito is already developed with functional maritime uses. Please focus on solutions that revitalize the maritime uses along Sausalito's waterfront - reefs, wetland restoration, and other similar solutions would put an already constrained maritime industry in greater peril.	9/12/2024 10:52 AM
44	?	9/11/2024 3:58 PM
45	I am not informed enough to help with a major decision. Key to me 1) impact to the environment and local sea life; 2) destruction of views and unsightly barriers	9/11/2024 9:23 AM
46	I think it will like take a combination of strategies to support the community, short term and long term planning	9/7/2024 12:56 PM

Q12 How will you be impacted by sea level rise? and your neighbors?

Answered: 123 Skipped: 77

#	RESPONSES	DATE
1	Driving along Bridgeway, shopping in Marinship.	11/18/2024 4:39 PM
2	Roadways	11/17/2024 9:26 PM
3	I will not be able to utilize businesses in the low lying areas.	11/17/2024 2:39 PM
4	I don't know	11/16/2024 2:06 PM
5	No parking or access to my work	11/16/2024 9:32 AM
6	Access to the waterfront will be disrupted. Community tension and fears.	11/15/2024 9:18 PM
7	We are lucky to be in the flats, modestly uphill from the shoreline. But I would like to see the community rise to the occasion and proactively embrace our vibrant ecosystems to help us prepare for the inevitable sea level rise.	11/15/2024 6:23 PM
8	The poor sewer system in Sausalito will be impacted by causing more flooding.	11/13/2024 2:52 PM
9	Rising water affects my parking and infrastructure, sewerage, water and docks for my floating home.	11/12/2024 7:01 PM
10	We will lose access to our parking lot, and the electric lines and sewers going under water will make our homes unlivable.	11/12/2024 6:56 PM
11	I live on a boat in a marina downtown that seems likely to be DESTROYED as the sea levels rise. Office where I work is also downtown, very close to current sea level and likely to suffer the same fate.	11/12/2024 12:53 PM
12	Expansion of the already established floating home community in wider Marin is the solution. We need more based based housing approval from the city and BCDC.	11/12/2024 10:38 AM
13	Our Docks are fixed and will eventually not remain above the water with sealevels	11/12/2024 10:16 AM
14	I assume some of my artist friends will need to relocate due to the expense of flood-proofing. I'm concerned Gate 5 will be gentrified once the city invests in flood management, urban renewal, etc. If I continue being based in Tam Valley, I will continue to be impacted by the ever-increasing traffic build-up and flooding at the Hwy 1 turnoff on 101.	11/12/2024 9:41 AM
15	Mainly through runoff from the hillsides above us.	11/12/2024 8:43 AM
16	Access to my home will be impacted and my local business	11/12/2024 7:13 AM
17	Damage to roads, clean water, loss of electricity/ gas	11/12/2024 6:59 AM
18	I'm on a slight hill so it will take longer for us to be affected. Car travel and nearby restaurants will be effected	11/12/2024 6:48 AM
19	Loss of civic services due to decreased tax revenue. Increased travel difficulties.	11/12/2024 6:13 AM
20	I live in the floating home community so my house floats. Our parking lots have already been raised about 4-6ft so we are in good shape for now.	11/11/2024 5:51 PM
21	not much, my house is 22' above high tide and I'll be dead before it gets too high. will have to drive the hills to get in and out of town and find new restaurants as most in town will eventually be underwater.	11/11/2024 5:49 PM
22	We have been stuck before in our home until it subsides	11/11/2024 5:26 PM
23	I'm on the houseboats, so all of our access and infrastructure will be impacted, along with all the commercial businesses on the north end of town.	11/11/2024 4:13 PM
24	Same as Schoonmaker Marina/Bay Model	11/11/2024 3:29 PM

Sausalito Shoreline Adaptation: Community Survey

25	tbd	11/11/2024 2:34 PM
26	I won't	11/11/2024 8:54 AM
27	Financially as result of neighbors and city owned land that is impacted causing insurance and other costs to rise.	11/11/2024 7:25 AM
28	unknown - likely many people and businesses will have to move	11/10/2024 8:51 PM
29	My house is high enough that it won't likely be impacted but everything very close to me may be, as will the areas along Bridgeway and downtown	11/10/2024 1:29 PM
30	Not at all	11/10/2024 7:35 AM
31	The houseboat community from Nevada Street north will become untenable with a 20-inch SLR, as a result of flooded shoreside infrastructure - water, sewer and electrical.	11/9/2024 6:25 PM
32	We are impacted by flooding that 1) impairs roadway access in and out of neighborhood; 2) degradation of roads and vegetation due to salt water; and 3) erosion and loss of shoreline vegetation	11/9/2024 3:45 PM
33	Getting north from our home will be difficult if Bridgeway is under water.	11/9/2024 2:37 PM
34	Traffic	11/9/2024 12:47 PM
35	NA	11/9/2024 11:40 AM
36	My property would not be affected; however, obviously everyone's quality of life would be impacted should sea levels rise sufficiently to compromise city infrastructure and services, and public spaces.	11/9/2024 10:06 AM
37	My home can potentially end up in the flood zone and the impact to the businesses and the recreation areas and streets in the low lying areas	11/9/2024 8:13 AM
38	We live up the hill enough, but the flatlands will be impacted.	11/9/2024 7:17 AM
39	I don't know.	11/9/2024 6:17 AM
40	It is a future disaster for all of us. Even if those of us who live in the hills are not directly impacted by the water (our properties) businesses, services, and the character and livability of Sausalito will be irreparably changed.	11/9/2024 5:48 AM
41	Our parking lot floods every month - for the last 20 years - more so each year.	11/8/2024 8:44 PM
42	Infrastructure and loss of water front	11/8/2024 5:08 PM
43	In my day to experience in town	11/8/2024 4:45 PM
44	Losing access to the bay trail would be such a tragedy for me. Also worried about access from my home to other roadways as Marin city is impacted.	11/8/2024 4:39 PM
45	The city will loose businesses and potential buyers/residents, and its attractiveness could potentially decline significantly.	11/8/2024 4:19 PM
46	not I, I am up the hill. but Bridgeway will be flooded regularly, or constantly depending on the level of rise.	11/8/2024 4:16 PM
47	manzanita and marin city flooding, should be priority. infrastructure before more building.	11/8/2024 4:14 PM
48	I own a sailboat - so concerns are with access to Marina and waterfront businesses	11/8/2024 4:12 PM
49	I'll have waterfront property, at least for a few years.	11/8/2024 4:09 PM
50	See above about Gate Six Road. All of the docks along Gate Six Road (Issaquah, A Dock, Yellow Ferry, Kappas East and West and the Richardson Bay Marina) will face increasing flooding and access issues.	11/8/2024 4:08 PM
51	We're on the hill	11/8/2024 4:06 PM
52	Not at all. Live on the hillside.	11/8/2024 4:02 PM
53	It won't	10/28/2024 12:10 PM

Sausalito Shoreline Adaptation: Community Survey

54	The public parks and community gathering spaces that are critical to Sausalito's quality of life and our community culture would likely be underwater. The population of Sausalito is currently declining at a rate of 1.11% annually. If current trends continue, in 2090, that means there will be 66% less people in the city. So the impact on the total number of people, unless present trends change, will be lower than it is today.	10/7/2024 9:13 PM
55	We live at the top of the hill. But access via roads close to sea level could be affected.	10/6/2024 4:30 PM
56	Access to goods and services will be limited or constrained.	10/1/2024 9:30 PM
57	Habitual pedestrian/vehicular access along existing Bridgeway will be impacted.	9/28/2024 1:19 PM
58	Getting in and out at north end, parks underwater, sewer system messed up.	9/26/2024 3:16 PM
59	We will be forced to move. We already have a sump pump in our backyard so time is ticking.	9/26/2024 1:35 PM
60	I have not seen the floods worsening in the last 10 years or so but when Bridgeway floods a few times a year I have to take to Spencer avenue to leave town. I don't anticipate much of an impact since I live well above sea-level.	9/25/2024 10:42 AM
61	Not at all	9/20/2024 10:33 PM
62	On a houseboat we will be directly impacted by flooded parking. Even more scary is the damage from waves from increasing storm intensity. I hope this can be considered in addition to 'just' sea level rise.	9/20/2024 5:20 PM
63	pinched access. possibly backed-up storm drains	9/20/2024 1:21 PM
64	Everyone in Sausalito will be affected by sea level rise, even if our homes are uphill and out of the flood zone. Bridgeway, many connecting streets, community buildings and businesses are already impacted or will be soon. Parks, paths, and recreational spaces that make Sausalito a great place to visit (and live in) are at high risk. Residents in Sausalito live in one of the most beautiful places I can imagine, but with sea level rise it can feel like we're trapped between a heavily used freeway and the rising sea. It would be amazing if Sausalito could take this challenge and turn it into an opportunity to showcase how innovative infrastructure upgrades and green solutions can be used together to manage sea level rise.	9/17/2024 12:44 PM
65	not an issue on the hill	9/17/2024 6:56 AM
66	Some what- but nature happens.	9/16/2024 6:01 PM
67	we'll just lengthen our pilings	9/16/2024 5:09 PM
68	I won't be. The major climate change problem in the town are the increasingly violent storms and resultant stormwater/ mudslides. If the hills melt, then the houses will slide.	9/16/2024 4:27 PM
69	Because of Sausalito's topography Bridgeway is the key/only community road that links all of the town's diverse areas nestled into valleys and perched up hills as well as serving as the social public heart for the community. Therefore, reimagining Bridgeway and the structures and amenities along it is critical for the future community and economic engine for the town.	9/16/2024 1:29 PM
70	We're on high ground, but I worry about those living in lower areas.	9/16/2024 5:49 AM
71	isolated ND UNABLE TO ACCESS ROADS	9/15/2024 4:30 PM
72	Spaulding Marine Center can raise its improved infrastructure, if funding can be obtained. In @2001, the land setback directly next to Spaulding (Clipper) was raised by that owner to address sea level rise, and periodic storm flooding. As fill weight is added to a compressed former marsh (much of Marinship), it further increases subsidence. This will occur throughout the Marinship. Miller Pacific's recommendation was to fill the adjacent land directly next to Spaulding/Clipper with a 50% volcanic ash fill (@50 feet out from property line). That solution satisfied both parties. Perhaps this type of solution can be employed elsewhere over filled former marsh land.	9/15/2024 9:01 AM
73	I live in water. This is a joy and my house floats but Infrastructure is at risk. We are living experiments that create opportunity to participate in world leading ideas for Sausalito. Please consider this opportunity. Pioneers!	9/15/2024 7:46 AM
74	Not much	9/15/2024 7:14 AM
75	My office is on gate 5 Rd. It's just a matter of a few years until we will have to plan for multiple	9/15/2024 5:35 AM

Sausalito Shoreline Adaptation: Community Survey

	inundations annually	
76	Loss of roadways and possibly other vital services dependent on vulnerable equipment.	9/14/2024 5:45 PM
77	I'm on a hill and fine...the rest, who knows!	9/14/2024 5:38 PM
78	Roadways	9/14/2024 4:41 PM
79	Not affected.	9/14/2024 3:18 PM
80	It will destroy access to my work	9/14/2024 2:54 PM
81	Limited impact.	9/14/2024 10:59 AM
82	Minor impact because we live higher up.	9/14/2024 9:13 AM
83	Access to downtown via Bridgeway, access to businesses, access to open space areas along the water	9/14/2024 8:42 AM
84	compromised infrastructure	9/14/2024 8:18 AM
85	Our home will not be impacted, but I do fear roadways and other homes will be.	9/14/2024 6:40 AM
86	My neighbors and I live in Wolf beck Ridge, so we will not be affected by sea level rise.	9/14/2024 5:15 AM
87	N/A	9/13/2024 11:52 PM
88	loss of significant portions off Bridgeway the main street through town	9/13/2024 9:10 PM
89	Forever	9/13/2024 8:45 PM
90	My home won't be directly impacted but the waterfront on Bridgeway that I frequently access will impact my entire neighborhood.	9/13/2024 7:05 PM
91	our property and approaching streets will flood once sea level rises a few feet . .	9/13/2024 4:44 PM
92	Mainly by flooding roads	9/13/2024 4:24 PM
93	Not at all. But increased housing units will be disastrous. I find sea level predictions out into the future a fools folly.	9/13/2024 4:14 PM
94	I won't be too much. I think in my lifetime it will unfortunately feel like an inconvenience and abstract problem I don't have to deal with.	9/13/2024 4:10 PM
95	Lack of access to bridgeway and north on 101. Housing not impacted	9/13/2024 3:58 PM
96	Not able to operate our business.	9/13/2024 3:57 PM
97	Possible flooding at our residence, street flooding already occurring and impacting travel	9/13/2024 3:49 PM
98	Very	9/13/2024 3:41 PM
99	Transportation impacts only	9/13/2024 3:36 PM
100	We will loose access to our property, then it will flood	9/13/2024 3:27 PM
101	I'll have to buy a houseboat	9/13/2024 3:16 PM
102	Well, it could flood create more problems for people and more expenses.	9/13/2024 3:09 PM
103	Not	9/13/2024 3:05 PM
104	Wont	9/13/2024 2:53 PM
105	Very little I think as we live up on Cloud View. But I care deeply about the waterfront and the character of Sausalito	9/13/2024 2:35 PM
106	Not at all	9/13/2024 2:02 PM
107	I live in the hills, so I don't think our home or our neighbors will be affected, but I spend a lot of time daily walking the shoreline and through the parks and I see the effects ready.	9/13/2024 2:02 PM
108	no	9/13/2024 1:58 PM
109	Limited escape routes from Marin city	9/13/2024 1:55 PM

Sausalito Shoreline Adaptation: Community Survey

110	our property is safe but public infrastructure is not. Decisions about the marinship in particular need to consider resiliency. Housing there (which is inevitable unless we want it throughout the neighborhoods) should be build above parking	9/13/2024 1:51 PM
111	Access to our properties uphill	9/13/2024 1:45 PM
112	Commercial District	9/13/2024 1:35 PM
113	Access to my floating home will be limited.	9/13/2024 10:46 AM
114	I work at a marina that has already taken measures to address sea level rise (as well as drainage improvements) by raising the grade above the base flood zone elevation. Subsidence is a major issue as we lose approximately an 1/8-inch of elevation per year. Our neighbors who have not raised their grade are regularly flooded (especially during heavy rains and king tides).	9/12/2024 10:52 AM
115	My home floats already. However, access, parking, water, sewage, gas and power will all be underwater with sea level rise.	9/11/2024 3:58 PM
116	My business and home are in the flood zone	9/11/2024 9:53 AM
117	I live on the hill above Bridgeway in Hurricane Gulch -- no immediate impact, but the roads would impact all throughout Sausalito if there is flooding	9/11/2024 9:23 AM
118	Will lose access to portions of town, and suffer the impact of reduced City services due to decrease in public revenue.	9/10/2024 4:41 PM
119	I live on Issaquah. Road and dock infrastructure are my primary concerns	9/7/2024 10:06 PM
120	I live on a floating home. Community infrastructure is our biggest impact both in terms of roads/access and fixed docks	9/7/2024 1:57 PM
121	Gas, electric, and plumbing lines, all run under our docks	9/7/2024 1:01 PM
122	I will float in my houseboat. But the city systems like water, sewer, power are key and must be maintained if affected by rising waters	9/7/2024 12:56 PM
123	Easy road access will disappear as Bridgeway inundates. Loss of sewer services. Otherwise not much.	9/7/2024 10:46 AM

Q13 How concerned about the impact of sea level rise are you?

Answered: 186 Skipped: 14

	NOT CONCERNED	NEUTRAL	A LITTLE CONCERNED	MODERATELY CONCERNED	VERY CONCERNED	TOTAL	WEIGHTED AVERAGE
(no label)	9.14% 17	5.38% 10	12.37% 23	34.41% 64	38.71% 72	186	3.88

Q14 What's your vision for the future? How do you want future generations to prepare? Use one key word or phase to share your vision for the future of Sausalito if possible.

Answered: 129 Skipped: 71

#	RESPONSES	DATE
1	Historical and Access	11/18/2024 4:39 PM
2	Use common sense	11/17/2024 9:26 PM
3	build early and well.	11/17/2024 7:10 PM
4	The new vision on Sausalito is relying on good communication to state and local government to educate the "why" we can not continue to "grow" this city. Streets and living areas are not built to hold a large city. WE are a small town.	11/17/2024 2:39 PM
5	eco-habitat- friendly	11/16/2024 2:06 PM
6	Maintain our character as a waterfront town.	11/16/2024 9:32 AM
7	Natural adaptation	11/15/2024 9:18 PM
8	Environmentally conscious	11/15/2024 6:23 PM
9	Nature-based solutions over man-made solutions will win every single time for their longevity, not only in solving the problem but also in preserving the area we live in.	11/13/2024 2:52 PM
10	Make the process as natural as possible with only flexible infrastructure that encourages natural processes. A key work would be "natural".	11/12/2024 7:01 PM
11	Resilient and inclusive of all	11/12/2024 6:56 PM
12	More water based affordable housing / Floating homes.	11/12/2024 10:38 AM
13	"Eco-innovation." Getting kids involved in adaptation citizen science would be fantastic. I also like the idea of designing more floating (or perhaps raised) sustainable infrastructure for affordable housing, local businesses, innovation/artist hubs, and community-oriented public spaces to attract younger generations. Sausalito has always been too old, although I moved to Saus only 15 years ago. Making it easier for bikes to pass through away from cars is another important need for the future. Making it easier to find affordable housing where you aren't at the mercy of renting a room month to month.	11/12/2024 9:41 AM
14	As a GARDENER, I hope municipalities like Sausalito will educate residents about landscaping choices that help retain and direct water	11/12/2024 8:43 AM
15	maintenance	11/12/2024 8:16 AM
16	Urban planning and development should require mitigation and protection efforts	11/12/2024 7:13 AM
17	Adaptability	11/12/2024 6:59 AM
18	Build apartments elevated and no more than 3 stories	11/12/2024 6:48 AM
19	Sea wall.	11/12/2024 6:13 AM
20	I'd like to have a beautiful doorman building in town w great views , perhaps near le garage or near the 3 tennis courts so if I get tired if keeping up a big house in the hill I don't have to leave town. Even though this is close to the water I imagine building w modern construction would enable it to withstand flooding. Also, I'd like to see a safer way to bike in town along bridgeway. I would really value that. I think it should be up to the property owners near the water to deal with sea level rise. I don't see how the city can pay for that	11/11/2024 8:17 PM
21	Think outside the box.	11/11/2024 5:51 PM

Sausalito Shoreline Adaptation: Community Survey

22	current leaders living in a fantasy world and will bankrupt the town. Sausalito will have to retreat.	11/11/2024 5:49 PM
23	I would like my children to know when and where to access king tide information so they don't get stuck in their cars	11/11/2024 5:26 PM
24	Save Our Sausalito! Actively implement a flood mitigation plan today!	11/11/2024 4:55 PM
25	Vibrant	11/11/2024 4:43 PM
26	Keep it salty	11/11/2024 4:07 PM
27	Maintain a peaceful community aesthetic and historic working waterfront vibe.	11/11/2024 3:29 PM
28	nature based solutions	11/11/2024 2:34 PM

51	Sustainably and inclusively	11/8/2024 4:06 PM
52	No seawall which would be required by large scale development. Instead use nature based adaptation strategies.	11/4/2024 1:54 PM
53	Climate change adaptability, Urban Wildfire, Sea Laval Rise, Increase in Wind and Rain	10/28/2024 12:10 PM

Sausalito Shoreline Adaptation: Community Survey

	damage.	
54	A waterfront community using complete multi-modal transportation (bikes, walking, bus & boats - not cars) with plenty of accessible, usable and vibrant public open spaces on the water for all to enjoy.	10/7/2024 9:13 PM
55	Smart growth: plan for change.	10/6/2024 4:30 PM
56	Using a higher discount rate will only reduce the value of the future net benefits. Spend now to save more later.	10/1/2024 9:30 PM
57	Maintain seaside ambience & access, whatever the water level becomes.	9/28/2024 1:19 PM
58	Nature based solutions	9/26/2024 3:16 PM
59	I would like future generations to be open to big ideas around shuffling the physical places of businesses. When most of our buildings were built, no one was preparing for a climate catastrophe like 10 inches of sea level rise. I think the flexibility of property owners to acknowledge and come to terms with the fact that just because there's an office here today, doesn't mean that it always need to be that way. Part of our modern community is going to be sacrifice and that's likely to mean that we'll need to shake things up with things like.. Where we decided to put an apartment building, or a grocery store.	9/26/2024 1:35 PM
60	Complete streets	9/25/2024 11:30 PM
61	Unless the City can get a big Federal grant for a sea-wall or something of the sort, it looks like the owners of properties in the risk areas will have to modify their buildings. The sea level has been rising since the last ice age and began accelerating over 100 years ago and then again more recently. So buying sea-level property involves a known risk owners should be responsible for.	9/25/2024 10:42 AM
62	Embrace natural conservation strategies	9/21/2024 8:30 PM
63	Overcome Sausalito's NIMBY character	9/21/2024 5:59 AM
64	Work to stop global warming	9/20/2024 10:33 PM
65	Adapt beautifully	9/20/2024 5:20 PM
66	senior friendly	9/20/2024 9:20 AM
67	Imaginative	9/17/2024 12:44 PM
68	Leave nature alone.	9/16/2024 6:22 PM
69	Less building and less people.	9/16/2024 6:01 PM
70	The median age in Sausalito is 58. Seawater rise will not be a problem for the majority of residents. What will matter to them is rainwater flooding and mudslides.	9/16/2024 4:27 PM
71	integrate natural ecologies with the historic and evolving maritime history that makes Sausalito unique.	9/16/2024 1:29 PM
72	Infrastructure (repair & renovation)	9/16/2024 5:49 AM
73	Holistic	9/15/2024 9:01 AM
74	Keep Sausalito iconic and unique.	9/15/2024 8:51 AM
75	We must embrace it and live with it and explore the opportunity as well as the threat and invest now to avoid exponential cost impact and destruction In a word :- integrate.	9/15/2024 7:46 AM
76	Human diversity.	9/15/2024 7:14 AM
77	We need to adopt a mindset that propels us forward with the confidence to commit to long term, expensive, complicated solutions that will make us resilient in the face of certain hazards.	9/15/2024 5:35 AM
78	Awareness	9/14/2024 5:45 PM
79	Science	9/14/2024 5:38 PM
80	Maintain historic charm; limit development	9/14/2024 4:41 PM

Sausalito Shoreline Adaptation: Community Survey

81	Respect nature	9/14/2024 3:18 PM
82	We will work together	9/14/2024 2:54 PM
83	A quaint, cozy town on the waterfront with a lively, vibrant culture and music scene.	9/14/2024 10:59 AM

Q23 What additional information or resources would help you better understand and prepare for sea level rise in Sausalito?

Answered: 42 Skipped: 158

#	RESPONSES	DATE
1	Let us be realistic about what the city can and cannot do.	11/17/2024 2:39 PM
2	Suggested implementations at problem areas. The survey is educational, but honestly we need the efforts to tell us what works where keeping with the existing character. Lean towards natural adaptation.	11/15/2024 9:18 PM
3	Emergency plans/routes in the event of mass flooding in Sausalito.	11/13/2024 2:52 PM
4	Solutions to help the vulnerable floating home population especially would be helpful, as this affects hundreds of current residents who are quite vulnerable	11/12/2024 6:56 PM
5	Having worked with GGNPC and many National Parks, I'm a big fan of placing informative signs and booths with visionary designs and educational materials in vulnerable places of coastal impact.	11/12/2024 9:41 AM
6	Occasional mailer	11/12/2024 6:48 AM
7	What is all this going to cost and how is the city going to pay for this? Most of the housing is in the hill and are you planning to tax us to pay to protect commercial property?	11/11/2024 8:17 PM
8	Monthly meeting	11/11/2024 5:26 PM
9	none	11/11/2024 8:54 AM
10	Reports into City Council and city staff to educate citizens.	11/11/2024 7:25 AM
11	More events and activities to increase community engagement	11/10/2024 7:35 AM
12	Online ARCGIS maps WITH prominent identification of sources and dates of information mapped	11/9/2024 6:25 PM
13	I need more time to revisit material available. Will need to submit better opinions after that.	11/9/2024 3:06 PM
14	Asking people for civil engineering input and using this survey as a marker of local education is flawed. Someone with zero experience opining on whether our houses should be raised or we should Build a floodwall just seems a bit silly. I hope that this survey is given context and weighted against more expert opinions.	11/9/2024 6:17 AM
15	Reports on who is doing what, when, and what I can do will all help.	11/9/2024 5:48 AM
16	Actionable items for residents to do.	11/8/2024 5:24 PM
17	None, thanks	11/8/2024 4:09 PM
18	Is the County prepared to address Gate 6 Road?	11/8/2024 4:08 PM
19	Any existing or proposed solutions in other similar seaside communities such as Sausalito.	9/28/2024 1:19 PM
20	Signage that show where a 10 foot rise will impact.	9/26/2024 3:16 PM
21	This style of modern, informed, visual, and written communication is perfect. I think that as we learn more about each of the proposed options in questions 1-4, it would be important to consult climate communicators on other ways to get the word out. Sausalito seems like it has its head screwed on straight to begin to address the impacts of climate change and that is a differentiator. Enacting a plan and amplifying it to the level that can instill local civic pride is something that people are hungry for. It would be amazing to see Sausalito as one of the great models for addressing sea level change effectively and equitably.	9/26/2024 1:35 PM
22	Town informational public meetings	9/20/2024 10:33 PM

Sausalito Shoreline Adaptation: Community Survey

23	Thank you for reaching out to the community for this planning process. I hope to attend the next community meeting.	9/17/2024 12:44 PM
24	Nature wins!	9/16/2024 6:01 PM
25	Not interested.	9/16/2024 4:27 PM
26	There are existing histories about these problems within the City community. We need to resource them. It is best to spend much time in the planning phases and less time in actual "roll out" as there are very limited funds. The community really has only one shot at getting this right. Sea Level Rise bonds look to me to be the best bet for future funding of infrastructure needs.	9/15/2024 9:01 AM
27	Regular updates	9/15/2024 8:51 AM
28	Use the town website :- continuous tide data and flood impact but as a visual vs one off forgettable alerts - eg show like we do with weather/temperature and show trend. Show the rise now on a the town website and daily tide data. Bring the problem to a daily issue as we trend toward risk.	9/15/2024 7:46 AM
29	It's not up to me. Let's use the best scientific info available, and let experts make the assessments. Ridiculous to ask me to opine in any meaningful way!	9/14/2024 5:38 PM
30	Not sure	9/14/2024 4:41 PM
31	Facts and data. AND: All solutions need to be tied to a price / economical impact. If you ask people if they want a lot of things, they'll say yes. If you tell them what it'll cost them an/or offer options about what they can get instead, you'll get a nuanced and more realistic view of their priorities. Eg: I may want the fanciest and best seawall, but if I know I can get x more teachers and paved roads if I choose the second best seawall, that may be my preference. But if I don't get the choice I can't let you know.	9/14/2024 10:59 AM
32	So far the sea level rise has not at all followed the predictions	9/14/2024 7:50 AM
33	Swimming lessons.	9/13/2024 11:52 PM
34	Transparency at all levels from the City officials.	9/13/2024 7:05 PM
35	How much are the consultants getting paid? Such a waste of money.	9/13/2024 4:14 PM
36	Not sure what to ask for. All correct information is helpful to all of us.	9/13/2024 3:09 PM
37	None	9/13/2024 3:05 PM
38	Printable version or hard copy of all materials.	9/13/2024 2:45 PM
39	This is just wasted talk, if there is no budget. This is not an issue that a small City can tackle without funding. Please include economics in any future discussions.	9/13/2024 2:15 PM
40	More community meetings that are updates from the City about what's happening, not just community-sourced input/idea sessions	9/12/2024 2:33 PM
41	Success stories from other cities	9/7/2024 1:01 PM
42	Maybe more detail oral presentations about all the options. Looking at them on the posters was helpful but more info might be good.	9/7/2024 12:56 PM
