

Name: Ray Withy

Age: 61

Title: Sausalito City Councilmember

For the last four years, I've had the privilege of serving you on the Sausalito City Council. During that time, we strengthened our finances; introduced measures to pay down pension liabilities; and increased investment in streets, sidewalks, sewers, storm drains, parks and other public places. We funded the renovation of our three largest parks and the MLK facility.

I've worked closely with community members to tackle complex issues. A taskforce of residents studied the Marinship and recommended that its challenges, including improvements in circulation and infrastructure, be addressed while updating the overall Sausalito General Plan. We implemented the Pedestrian and Bicycle Committee recommendations, including the Ambassador Program for bicycle management and parking. We introduced new laws to regulate tour buses and bicycles. We still face challenges, which I want to help address. Many require multifaceted solutions implemented over time. I will continue to listen to all points of view, analyze the facts objectively and work towards solutions that benefit our entire community. Working together, we will: develop policies to reduce downtown congestion, update our General Plan, maintain our financial resilience, invest in infrastructure, and further enhance our city's efficiency.

Once again, I respectfully ask for your vote.
