

Electric Vehicle Charging at Dunphy Park

Access: Open to the public for Tesla and non-Tesla vehicles

Cost: \$0.42 kWh

Operation for Tesla Vehicles [Use any charger]:

It is the exact same process as charging at a Tesla Supercharger. Plug the charging connector into your vehicle and the session will be charged to the credit card associated with your vehicle.

Operation for Non-Tesla Vehicles [Use any charger and pull out the built-in adapter]:

1. Scan the QR Code on the sign located on the pedestal next to the charger → Download the Tesla App
2. Create an Account and Upload Payment Details (This will be saved and used for all future charging)
 - Tap 'Charge Your Non-Tesla'
3. Plug Connector into your vehicle's charge port
 - Scan the QR code located on the left-hand side of the Charger base
 - Charging will begin automatically, and a green LED light will illuminate on the charging base
4. Monitor your charging status and cost throughout your session using the Tesla App
